IMPROVED

ANGLESEY ARTIFICIAL LEGS

MANUFACTURED BY

DR. J. SHAW,

CINCINNATI, OHIO.

This limb is got up on the most scientific principles, combined with strength and durability.

It has stood the test for over half a century, and numerous are the attempts made to produce an equal ; but as soon as a fair test is had, they invariably wear out of notice. We admit that one limb has been preferred at the World's Exhibition, but why? on account of its exterior finish, and inasmuch as instruments of this description are seldom seen, I have made it my constant care to produce such limbs as give service, comfort, and satisfaction to the wearer.

My undivided attention has been given to this branch of business for over twenty-four years. I have had three times the experience of any manufacturer in the United States, and have produced more good Limbs than any one man living; and in fact I defy comparison where real utility, lightness, strength and durability are in question.

Descriptive Handbills procured by letter prepaid.

Rooms 24 West Sixth Street.

DANIEL D. WINANT,

BILLIARD TABLE

MAKER,

The oldest and most extensive Manufactory of the kind in America.

No. 71 Gold Street, NEW YORK.

Between Beekman and Spruce.

Everything in the line furnished at ten per cent. less than any other Establishment in the city.

Tables, Balls, Maces, Cues. Cloths by the piece or yard, Gibb's Adhesive Cue Wax, Silk and Worsted Pockets, Fringes, French and American Patent Cue Points, Cord, Pool Boards, Rule Boards, Spanish Pins, &c. In short, every thing in the Trade always to be had. Orders by letter, for new articles or for repairs, attended to as promptly as if given in person.

IMPORTANT TO BILLIARD PLAYERS.

For sale at the office of publication, 71 Gold St. New York, price $3.00,

"Billiards without a Master," by Michael Phelan.

The above-named work, the first American publication of the kind, is illustrated by fifty fine copper-plate diagrams, each containing from one to twenty-four shots, from which sufficient knowledge may be acquired to enable the player to accomplish any possible stroke on the billiard table, all of which are fully explained on the pages opposite to the respective plates. The work contains an invaluable and original invention in the shape of a chart or scale of strengths necessary to be used in making each shot, of an arrangement so simple that it can be comprehended by all, and will be found of the highest importance to the novice and amateur, as every shot there delineated has been graduated by it, and the quantity of strength necessary to be used is given in the description annexed to each plate. It contains, also, a full and complete set of rules for the government of the game of billiards, and the various games of pool; hints to players; advice to amateurs, with a variety of explanations, interesting to all conected with billiards or billiard playing. To keepers of billiard-rooms, the "Rules" are worth the work, and the hints and the advice are invaluable. Acompanying the work is a treatise on the origin, rise and progress of the game. It is also embellished by a fine steel plate frontispiece, showing a billiard table and players in position. The above work is the most complete one of the kind ever produced in any part of the world, and the only one in which the theoretical science and philosophy of the game has ever been explained.

THE LARGEST

BILLIARD TABLE MANUFACTORY

IN THE COUNTRY.

APPLEGATE & CO.

BOOKSELLERS

PUBLISHERS,

AND

STATIONERS,

No. 43 MAIN STREET, CINCINNATI, O.

We have one of the largest and best assorted Stocks in the West.

Our Stock embraces the best Works on

THEOLOGY, MEDICINE, LAW, MECHANICS,

AGRICULTURE,

HISTORY, TRAVELS, TALES, MEMOIRS,

PHILOSOPHY, &c. &c.

And a complete assortment of all the most desirable MISCELLANEOUS BOOKS published. Our stock of SCHOOL BOOKS embraces all books of merit used in the West, from the Spelling Book to the Lexicon. Our stock of STATIONERY embraces every variety of Blank Books, from the small Memorandum Book to the large super-royal Ledger, including every article used in the counting-room.

We have for the Country Merchant a full variety of Letter, Cap and Note Paper, Envelopes, Wrapping Paper, Bonnet Boards, Ink, &c., &c.

Our own Publications are too well known as works of the highest merit, to require more than an enumeration of the most prominent, which are CLARKE'S COMMENTARY, DR. DICK'S COMPLETE WORKS, ROLLIN'S ANCIENT HISTORY, PLUTARCH'S LIVES, SPECTATOR, JOSEPHUS, &c., &c. We invite all who deal in, or purchase books, to give us a call, as we are confident we can offer them such inducements as shall be mutually beneficial.

PAGED BLANK BOOKS,

Of every description, on hand and made to order of the

BEST PAPER.

WHOLESALE

PAPER WAREHOUSE

ESTABLISHED 1831.

WE OFFER FOR SALE A WELL SELECTED STOCK OF

Paper, Cards, and Printing Ink,

For Printers, Publishers and Dealers.

PAPER AND LEATHER FOR BOOKBINDERS,

And every description of

PAPER MAKERS' MATERIALS.

Having been the first, by several years, to establish in the West, a paper business complete in all its parts, we have formed *permanent and exclusive connections* with the best manufacturers in the country, and receiving our supplies directly from them, on the best terms, we have been enabled from year to year to make important reductions in our prices, until the prices and terms we now offer are as favorable as the same goods can be purchased for in the Eastern cities.

We have the exclusive Agency for the superior

WRITING PAPERS,

Manufactured by PLATNER & SMITH, being the highest grades of writing paper made in this country.

Our stock embraces every description of paper used in the West, whether of Eastern, Western, or Foreign Manufacture. Printers, Dealers and Consumers, are invited to examine for themselves, the quality and price of our goods, not forgetting COLOR, QUALITY, and WEIGHT, three essential particulars, neither of which can properly be disregarded.

The papers we offer are *regular goods*, of which we are certain to receive regular supplies, enabling us to furnish the same quality from one year's end to the other. We have but one uniform price to all. Orders by mail will be filled at the same price as if bought in person. Samples will be sent by mail free of cost.

M'CREARY'S PRINTING INKS.

News, Book, and Colored Inks ; a full supply, for sale by the sole agents.

We manufacture in large quantities, WRITING INK of a quality equal to any in the country. The sale now extends over several of the Western States, and is constantly increasing. Orders solicited.

OIL PASTE BLACKING.

We continue to manufacture this article largely, with every advantage of improved machinery. This quality is equal to any made in the Union, and has been approved by many of the largest dealers in the West for more than ten years past.

Our prices are so low as to command a large portion of the trade from the principal cities of the West, and leave no inducement whatever to purchase at the East, incurring heavy expenses for freight, insurance and exchange, those charges being from 15 to 20 per cent. Packed in barrels of about six gross, and shipped free of expenses. Orders promptly filled.

J. N. HARRIS & Co.

SOLE PROPRIETORS OF

PERRY DAVIS' VEGETABLE PAIN KILLER

For the Southern and Western States, to whom all orders should be addressed,

No. 7 College Buildings, Walnut Street, Cincinnati, O.

HENRY BLAKSLEY, ST. LOUIS, MO. IS OUR AUTHORIZED AGENT FOR MO. AND ILL.

To him we would refer all dealers in Medicines in Missouri and Illinois for the genuine PAIN KILLER.

We would caution the public against buying the Pain Killer of Pedlers and transient traders, as there is much of a counterfeit and worthless article sold by them. We never sell the article to be peddled about the country, and the men who travel about and offer the article, purporting to have been bought from us, and show their Certificates of Agency, are imposters, as we have never given such Certificates, and never sell to pedlers; and when the Pain Killer is offered at low prices, you should examine it well, as the price of the genuine is uniform. A gang of counterfeiters at St. Louis have for some time operated in this counterfeit article. They are all known by us and closely watched, and in due time we will punish their rascality.

The Pain Killer is sold by all Respectable Druggists in the U. S. and on such we would recommend the afflicted to call.

WATER COOLERS
AND
FILTERS.

With one of these Coolers, you can always have ready for use Water as cold as Ice itself, and as clean as the Spring Water. Manufactured by

GEORGE D. WINCHELL,
Corner of Pearl and Walnut Streets, Cincinnati, O.

A BOON FOR THE PEOPLE

The want of a Water Filter that would extract the natural impurities of River, Lime, or Rain Water, has long been felt by the South and West. This want has induced the proprietor to careful investigation and many experiments, and the result is that he now offers to his customers and the public generally, a CHARCOAL FILTER. This simple thing is so arranged that it will filter thirty gallons per day, remove all animal, vegetable, and earthy matter from river water, sooty flavor and smell from cistern water, and renders the muddiest stream equal to the purest spring water.

We will guarantee to supply all orders at Philadelphia and New York lowest wholesale prices, thus saving expense to the purchaser of transportation.

WM. M. KOHL. **H. W. FOWLER.**

STRAUB. B. HAZLET.

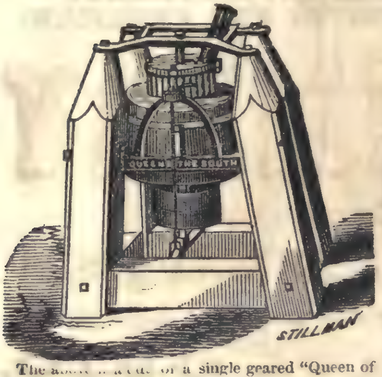
ISAAC STRAUB & Co.,

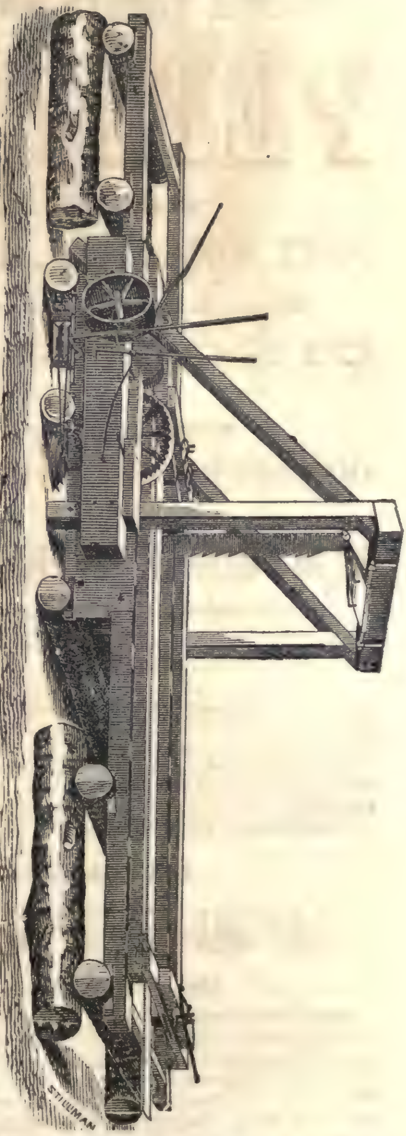
MILL FACTORY,

Corner of Front and John Streets,

CINCINNATI, OHIO.

Warehouse No. 19 Front Street, between Main and Walnut.





The above is a cut of a single geared "Queen of the South" Corn Mill and Crusher.

We manufacture a Cob Breaker of great strength and ease of operation.

We place this useful contrivance on all sizes of Mills, by which means we convert a Corn Mill into a Stock-Feed mill; but a few minutes' work to put it on, or to take it off.

We manufacture portable mills, single and double geared—best quality of French burrs—to grind corn, wheat, and stock feeds, calculated for steam, water or horse power. These mills have been run by steam and horse power, in competition against the other make of mills of our city, at our State Fairs, and have never failed to carry off the first premium—on one occasion was awarded a beautiful silver medal. Our mills also took two first premiums at the best mills, at two Annual Fairs of our Mechanics' Institute. Also, Portable Saw Mills, to be run by steam, water or horse power. This mill was exhibited in operation by horse power, at the Ohio State Fair in 1850, when it was awarded a premium and a splendid silver medal.

Also, Different kinds of portable horse power and steam engines. All our articles, for ease of operation, simplicity, usefulness and durability, are surpassed by none now in use. All our articles are warranted as represented, or no sale, at our cost of transportion, and the money refunded. For a full description and testimonials of merit and usefulness, we refer those interested to our pamphlet, to be had at our factory, where we take pleasure to explain each article. ISAAC STRAUB & Co.

NOTE.—Mr. Kimball, the partner of J. H. Burrows, while exhibiting a Burrows' Mill at our State Fair, last fall, was boisterous about his mill, and courageously entered into a verbal agreement with me to grind corn thus. Whoever graínds the most, regarding quality and quantity, was to be the owner of both mills at each and every trial.

FIRST TRIAL—Straub to run an 18 inch mill. Burrows & Co. to run a 20 inch mill.

SECOND TRIAL—Straub to run 22 inch mill. Burrows & Co. to run a 24 inch mill.

THIRD TRIAL—Straub to run a 26 inch mill. Burrows & Co. to run a 30 inch mill.

When the pinch came, that boisterous courage stepped out.

To the above I append a challenge to grind cob feed out of whole ears of corn.

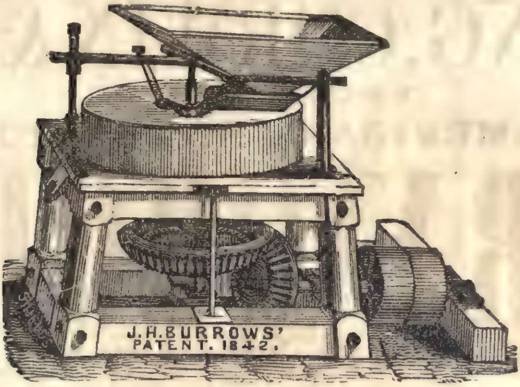
I will run my 18 inch "Queen of the South," with a cob-breaker attachment, the same article that took the premium at the Ohio State Fair, last fall, against a 24 inch Burrows' Mill and Wm. Stewart's Ohio and Kentucy Stock Feed Mills, both to be run at once; and if you are apprehensive of a risky business, you have my entire approbation to run Mr. Pomeroy's Corn Crusher as an auxiliary. Should my single article fail to grind equal in quality and quantity to the combined productions of the two or three mills—just as you please—then you can draw a few hundred dollars as stakes put up.

Come boys don't be cowardly, there is nothing like walking into the merits of the things.

To J. H. BURROWS & Co., Sept. 29, 1852. ISAAC STRAUB,

J. H. BURROWS. A. KIMBALL.

J. H. BURROWS' PATENT PLANTATION



CORN MILL.

This Mill differs from all others in the construction of the Upper or Runner Stone, which is composed of French Burr Blocks, enclosed in a cast iron Case, that forms the back and hoop of the Stone, with a cast iron Eye or Bush, that is of greater external diameter at the bottom than at the top; this is secured to the back by four bolts, so that every block is in the form of a dovetail. This gives greater strength to a stone than any other method which is required in small Mills, where the stone is run with great speed and becomes dangerous if not strongly made. It also gives any weight to a stone of small diameter that is required, without having it thick or high, which makes it top-heavy.

This Mill is a square frame made of wood, or cast iron, in the form of a husk, with Bridge-tree, Spindle, Balance, Rine, Driver and Regulating Screw, and grinds upon the same principle as a large Mill, differing only in the Runner Stone; this being of great weight, enables it to grind near the center, a large quantity of grain, with less power than any other Mill now in use. This Mill is portable, and may be attached to Steam, Water, Horse, or Hand Power.

ALSO—All sizes of French Burr Mill Stones, manufactured on the same principle.

Jos. H. Burrows, of Cincinnati, is the Inventor, for which he received Letters Patent in 1842. For all infringements, the purchaser will be held responsible for the right of using. These Mills do not require a Millwright to set them up; and all that is necessary to put them in operation is, to attach a band to the pulley on the Spindle, with drum sufficiently large to run a 24 inch Mill 240 revolutions per minute, attached to Gin, Steam, or Water Power. By the steady application of two-horse power, the Mill will grind six to eight bushels per hour, of good meal; and will grind Wheat, as well as Corn. The 30 inch Mill, if put to its fullest speed, will grind from 10 to 15 bushels per hour. These Mills are warranted to be in every respect as recommended. They have gone extensively into use for making Flour, within the last three and four years, and are approved by all who have used them.

Refer to Thos Patterson, Esq., of Highland Co., O.; Jesse Beal, Esq., of Clinton Co., O.; C. S. Bradbury of Cincinnati, and a number of others.

Directions for Using.

Place your Mill about 12 feet from the Driving Pulley, in a level position; make the belt of leather six to eight inches wide. Give the Stone 240 revolutions in a minute, with the sun. Keep the neck and step of the Spindle well oiled. Place the star on the back of the Runner Stone, the same way as the Cross on the Driver: that is the way they are trimmed to run.

All orders directed to **J. H. BURROWS & Co.,**
West Front Street, Cinncinnati, O.

ALSO—Constantly on hand, W. Stewart's Newly Improved Corn and Cob Crusher, known by the name of the OHIO AND KENTUCKY STOCK MILLS which will break and grind from fifteen to thirty bushels per hour.

EVENS' PERCUSSION PRESS.

NOTICE.---REVOCATION OF AGENCY.

I hereby give Notice to to the Public, and to all wishing to purchase Evens' Percussion Seal Press, that I have revoked the Agency of C. F. Hall, who has for some time advertised himself as my General Agent. The said C. F. Hall has no longer any authority whatsoever from me to manufacture, or sell, or in any way trade in Evens' Percussion Seal Presses, and I shall hold all persons liable to the full extent of my right, who undertake to deal with him in relation to said Press.

The genuine have "Even's Percussion" cast upon the press, and "Patent, 1853", Manufactured exclusively by myself, under Patent, June 28th, 1853.

PLATT EVENS, Jr., Cincinnati, O.

$5.

This Press is to stamp your Business Address upon all Business and Important Paper, viz: Receipts, Checks, Notes, Letter Heads, Envelopes, &c., to prevent the same from being FORGED or COUNTERFEITED.—This protection is obtained by a blow of the hand upon the Press, which gives instantly to the paper a chaste beautiful impress of a business Card or Address, in relievo, thus baffling the efforts of the most adroit counterfeiter.

☞ Price of Press, with Seal of Fifty Letters or less, $5. All over Fifty Letters, Five cents each.—Press with Notarial Seal. $5.—Devices on other than Notarial Seals, extra, say from 50 cents to $1 and upwards.

Arrangements are now made to supply the whole country, East, West, North, and South. This PERCUSSION PRESS is now in constant use in Cincinnati and vicinity, by many of the principal Bankers, Merchants, Mechanics, Notaries Public, Recorders, Lodges, &c., for two years, to whom all who desire information as to its utility durability and value are respectfully referred.

Weight of Press only Two Pounds.

Application for Agencies must be made to the undersigned. This press can be had only from myself or authorized Agents. All orders for Seal Presses will be promptly attended to, with elegantly engraved and designed Seals to match.

Bartlett's Commercial College.

Established 1835, and Chartered by the Ohio Legislature, 1847.

Tuition Fee, 50 per cent. less than any other similar Institution in this country, all things considered.

CINCINNATI, O.

Success guaranteed in from eight to twelve weeks—such as will enable gentlemen to conduct, upon scientific principles, business books of any kind. Morning Session, from 8 to 12 M. Afternoon, 2 to 4½ P. M. Evening, 6½ to 9 P. M.

As a matter of convenience to ourselves, a new class is organized in this Institution from the first to the tenth of each month throughout the year. This arrangement, however, does not interfere with those who wish to commence at any other time, as the practical part of the instruction is given to each individual separate and apart from the rest—not in classes as in other schools. Hence, Gentlemen may commence at any time, without prejudice to their interest.

COMMERCIAL CALCULATIONS, &c.—This is the only Commercial School in this country that even pretends to instruct its students in the various departments of Commercial Calculations to any considerable extent. In short, we know of no other Institution in this country in which the higher branches of Commercial science, and the doctrines of Life Assurance and Annuities are successfully taught.

PRESENTED BY THE AUTHOR, R. M. BARTLETT, TO HIS PUPILS.

Each pupil, on completing the full course, is presented with a copy of Bartlett's Commercial and Banking Tables, bound in Russia, and gilt. The book and the knowledge obtained of its application to the various branches of business, is regarded by all who have graduated in this Institution, since its introduction into it, as being worth, in fact, more to any man, than the whole tuition fee.

Some notion of this great commercial work can be gathered from the following testimonials of bankers and others.

Commercial and Banking Tables, by R. M. Bartlett, Principal of Bartlett's Commercial College, Cincinnati, O.

Bartlett's Commercial and Banking Tables.—The author of this most extraordinary and complete work, has been known for a long time to the commercial world, as Principal of the Commercial College of Cincinnati.—For many years it was the only one west of the mountains. At this moment it occupies the proud position of the First Commercial Institute in the United States.—[From Hunt's Merchant's Magazine, New York.]

Bartlett's Commercial and Banking Tables.—It is almost impossible to speak of his great work within the compass of a short article, as its intrinsic merits deserve. As a work comprising the science of all mercantile calculations, we are not aware that anything of the kind has ever before been attempted. Its completeness is manifested from a few moments inspection.—[From the N. Y. Journal of Commerce.]

BARTLETT'S COMMERCIAL AND BANKING TABLES.

This work contains the most complete series of Commercial Tables in the English language. The work in question is an original one of the highest merit.—[From Columbia College, City of New York.]

CHAS. KING, L. L. D., President.
CHAS. W. HACKLEY, Prof. Mathematics and Astronomy.

BARTLETT'S COMMERCIAL AND BANKING TABLES.

We confess both surprise and admiration at the extent, the originality, the infinite labor, the comprehensive grasp, the scrupulous accuracy, and the beautiful typographical execution of this great and minute work.—[From the N. Y. Courier and Enquirer.]

"It is the most splendid offering industry and intellect has yet made, in the form of a volume, to the mercantile world, and one that bears directly upon its daily transactions. The advantages which it presents are too great to be overlooked, and too useful to be neglected. Within the field of mercantile calculations it will avail more to establish order, exactness, dispatch, and accuracy of labor, than all works of the kind combined."—[From the N. Y. Herald.]

COMMERCIAL EDUCATION.—BARTLETT'S COMMERCIAL COLLEGE CORNER OF THIRD AND WALNUT STREETS, CINCINNATI, OHIO.

The Principal of this old and deservedly the most popular institution of the kind in this country, has been for years known to the Business community as the only instructor in the higher branches of Commercial Science.—In fact, Mr. Bartlett has no competitor in his line. If any doubt the validity of these remarks, let them spend an hour or so, from time to time, in this Institution; investigate his system; listen to his lectures on Interest; Equation; Exchange, both Foreign and Domestic; Annuities Certain; Convertible Annuities; Life Annuities, etc; and then review Mr. Bartlett's late and most remarkable work on Commerce and Banking, and they will doubt no longer. [Gazette.

BARTLETT'S COMMERCIAL AND BANKING TABLES.

These Tables are so numerous and comprehensive that they embrace the advantages of all other tables combined, besides many peculiar to themselves.

That thy work will become the standard in this country there cannot be a doubt.

We find, from experience, that the interest upon running accounts, can be determined with ease, from thy book, in less than one-half of the time required by any other system. Thy assured friends,

ABRAHAM BELL & SON, General Commission Merchants.

We are using the tables of Mr. R. M. Bartlett, and most cordially concur in all that is said of them by Messrs. A. Bell & Son.

LEVI COOK & Co., Foreign and Domestic Fancy Goods.
STURGESS, BENNET & Co., Wholesale Grocers.
LAWRENCE, STONE & Co., Domestic Commission Merchants.

R. M. BARTLETT'S COMMERCIAL COLLEGE.

Mr. Bartlett's superior knowledge of commercial matters, together with upwards of twenty years of practical experience in the art of preparing men to discharge the duties of the counting room, gives him an advantage over all others in his line, and is an inducement for gentlemen to become master bookkeepers and scientific accountants. The principal, Mr. R. M. Bartlett, presents each of his pupils, on completing a thorough course, with a complete copy of his Commercial and Banking Tables, which in point of value more than equals the entire cost of a complete course in this college. [Commercial.

COMMERCIAL AND BANKING TABLES BY R. M. BARTLETT, PRINCIPAL OF BARTLETT'S COMMERCIAL COLLEGE.—It is now nearly three years since we first commenced using a portion of this work, during which time we have determined the interest on upwards of three thousand accounts current, with a saving of at least fifty per cent. of our time.

The work is original in every particular, worthy of unlimited confidence, and richly merits universal patronage.

T. S. GOODMAN & Co., Bankers.

PALMER'S PATENT LEG.

B. FRANK PALMER,

Inventor and Manufacturer, 376 Chestnut Street, Philadelphia.

This Limb is composed of the lightest materials compatible with strength and durability. The joints, by novel contrivance of elastic cords, performing the office of muscles and tendons, allow of an easy, graceful motion, that by a little practice is soon made to correspond with the other limb, and so natural a gait is in a short time acquired, that the loss of the real leg would hardly be suspected.

It differs radically from all other artificial limbs, both in its mechanism and external appearance, being adapted to every form of amputation, and successfully applied to the shortest and tenderest stumps. If amputation be below the knee, and the joint anchylosed, or too short to retain the use of the joint, perfect action is given by an artificial joint without elongating the thigh perceptibly. The peculiar characteristics of this limb, are life-like elasticity and flexibility, excessive lightness, durability, adaptability, and perfection of exterior appearance.

N. B.—It possesses the true principles of ventilation, allowing currents of air to pass to the stump without sacrificing other more important properties.

"Palmer's Artificial Leg, as now improved, is superior to any other ever constructed, and merits, for science and humanity, the highest testimonial of the Institute." (GOLD MEDAL.)—*Last Report of the American Institute, N. Y.* 1852.

"Mr. Palmer having already received two first premiums, at former exhibitions, as well as the Scott Legacy Medal, from the Committee on Science and the Arts, the Committee do not deem any further award necessary, while at the same time they consider the deposit still fully sustains its position as the best form of Artificial Leg known."—*Franklin Institute, Philadelphia; Exhibition, Oct.* 1852.

I have examined, carefully, the Artificial Leg invented by B. Frank Palmer, of this country. Its construction is simple and its execution is beautiful; and what is most important, those who have the misfortune to require a substitute for the natural limb, and the good fortune to possess it, all concur in bearing practical testimony to its superiority in comfort and utility.

VALENTINE MOTT,
New York, Jan. 29, 1851. Prof. of Surgery in the N. Y. University.

I have seen several of the Artificial Legs manufactured by Mr. B. F. Palmer, in use and consider them superior to any with which I am acquainted.

WILLIARD PARKER, M. D.
N. Y. Jan. 29, 1851. Prof. Surgery in the College of Physicians and Surgeons, N. Y.

I have examined with great care the Artificial Leg invented by Mr. B. F. Palmer, and do not hesitate to recommend it in the strongest terms.

THOS. D. MUTTER, M. D.
Philadelphia, March 27, 1851. Prof. of Surgery in the Jefferson College, Philadelphia,

I have examined, carefully, the Artificial Leg invented by Mr. Palmer, and have formed a very favorable opinion of its construction. I have, also, advised my patients to obtain it.

W. GIBSON, M. D.
Philadelphia, Jan, 23, 1851. Prof. of Surgery in the University of Pennsylvania.

Thirty Gold and Silver Medals, or First Premiums,

Have been awarded the inventor in the United States; Also, the great Prize Medal of

The World's Exhibition in London, in 1851,

Where Palmer's Patent was declared to be the best Artificial Limb ever presented.

An American triumph over thirty different kinds of Artificial Limbs on Exhibition, from the best and most eminent artists in London, Paris, and other portions of Europe. and determined by four of the most eminent Surgeons of the World! viz: Mr. Wm. Lawrence, F. R. S., Pres't Royal College of Surgeons; Mr. Joseph H. Green, F. R. S. College of Surgeons; and Mr. Philp, an eminent artist, of London. M. Roux, Chief Surgeon forty years in Hotel Dieu; and M. Lallemand, Member Royal Ins't, of Paris; Thos Chadbourne, M. D., United States; Jurors.

This Limb can be optained only at 376 Chestnut Street, Philadelphia, except by persons residing in New England or New York, who should apply to Messrs. Palmer & Co., Springfield, Mass.

A liberal reward will be paid to any person who will furnish evidence of infringement of the Patent.

Apply by letter before coming for a limb, to avoid great detention.

B. FRANK PALMER.

INCORPORATED, 1848.

Gundry's Mercantile College.

APPOLLO BUILDING, N. W. Corner 5th and Walnut streets,

CINCINNATI, OHIO.

The attention of the public is respectfully called to the superior facilities afforded at this Institution, for qualifying individuals in a thorough practiced manner for the counting-room and business pursuits.

INSTRUCTION—BOOK-KEEPING BY DOUBLE ENTRY.

A complete practical course of Instruction is given in the art of keeping scientifically Double Entry Books in the different departments of Trade, Commerce and Manufactures, comprehending the forms in use among the most eminent establishments engaged individually or in partnership business, whether prosperous or adverse, in the purchase and sale of merchandise at wholesale and retail, importing and exporting on their own account on commission, or on joint speculation, including speculations in stocks, real estate, &c., with steamboating, bank insurance, railroad, and books of joint stock and chartered associations generally.

COMMERCIAL CALCULATIONS embrace every variety of computations pertaining to business operations being taught according to the most approved methods—Interest, discount, Equations, Arbitration of Exchanges, &c.

MERCANTILE CORRESPONDENCE.

Such exercises are introduced on this subject as are calculated to impress business habits and a genuine business style of correspondence upon the mind of the student, as well as familiarize him with commercial technicalities and phraseology, including *pro forma* Invoices, Account sales, Bills of Exchange, &c.

PRACTICAL PENMANSHIP.—One hour is devoted in teaching a systematic style of Business Writing, combining freedom with a thorough command of hand and pen, accuracy and elegance with ease and rapidity, and perfect legibility with beauty of construction.

COMMERCIAL LAW AND POLITICAL ECONOMY.—Daily Lectures are given on these important topics, as connected with the avocations of the merchant in the operations of commerce and practical workings of trade, embracing the subject of Partnership, Principal and Agent, Negotiable Instruments, sales Debts, Guarantees, etc.; also on the laws of wealth, currency, foreign and domestic exchanges, credit, profit, interest, wages, international trade, &c.

The course can be completed in from eight to ten weeks. Instruction being given individually, applicants can enter at any time. A knowledge of the ordinary English branches is all the requisite preparatory qualifications. The business acquaintance of the Principal enables him to render assistance to those wishing to procure situations on graduating. Good board can be obtained in the city at $2.50 per week.

TERMS - For full course, $40; for partial course, $25. Diplomas under seal are awarded the graduates.

GUNDRY'S COMMERCIAL WRITING FLUID.—The undersigned is prepared to furnish the Western market with his superior Writing Fluid—his own invention—and which in color, durability, and fluidity, is warranted to be unsurpassed. The color is at first a greenish blue, changing to a deep permanent black.

All orders will be promptly attended to by addressing, or calling on him at his office in Mercantile College. It may also be obtained at the Book Stores generally. JOHN GUNDRY.

Notices of the Press.

"GUNDRY'S COMMERCIAL WRITING FLUID."—The merits of this article (a recent discovery by Mr. Gundry, Principal of the Mercantile College,) are not generally known. We have been using it in our counting room for some weeks, and unhesitatingly pronounce it very superior.

This Ink may be had at the Book-stores generally. We would advise those who desire a good writing fluid to give it a trial.—*Cincinnati Gazette.*

This Ink received the First Premium at the Ohio State Fair, Sep. 22d, 1853.

CHAS. ABBEY. WM. R. ABBEY. CHAS. O. ABBEY.

CHAS. ABBEY & SONS,

Manufacturers of Dentists' Fine Gold Foil,

NO. 26 PEARL STREET, PHILADELPHIA.

The Subscribers have been engaged in the manufacture of Gold Foil upwards of thirty years, and for the last fifteen years have been devoted solely to that business, and as the preparation of our Foil is performed by ourselves personally, we are consequently enabled to give it that care and attention which its importance to the Dentist demands. Our Gold Foil is used and recommended by most of the leading Dentists throughout the United States, and we believe that we can confidently offer it to the notice of the Profession as an article of superior quality.

All orders by mail or otherwise promptly executed.

ROYER BROTHERS'

IMPROVED

SEAL PRESS

This unique invention is a sure protection from forgery of all important papers, such as Checks, Bonds, Bills of Exchange, Drafts, Letters, Labels, Notes, Receipts, Envelopes, &c. This protection is obtained by a pressure of the hand upon the Press, which instantly gives to the paper a chaste and beautiful impression, of a business card or address *in relievo*, thus baffling the efforts of the most adroit counterfeiter; it likewise answers the purpose of a card to all papers on which it may be stamped.

This Seal Press is a great improvement over all others, as they are light, weighing from three pounds upwards to twenty-five pounds, durable and not likely to get out of order, and bring up a better impression than either the Percussion or old style Screw Press, with the greatest ease.

This Press is now in constant use in Philadelphia, New York, Baltimore, Boston, and the principal cities in the United States, by many of the principal Bankers, Merchants, Mechanics, Notaries Public, Recorders, Lodges, &c. to whom all who desire information as to its utility, durability and value, are respectfully referred.

We have Four Sizes, Nos. 1, 2, 3 and 4, No. 1 being the Smallest.

Price of No. 1, Press all complete, $4. Price of No. 2, Press all complete, $8.
" 2, " " $6. No. 4, which is a large Press, suitable for Corporations, &c., $10.

To Stationers and Traveling Agents wishing to engage in the sale of the above Presses, great inducements will be offered; and as the demand for these Presses is great, a handsome profit can be made. Parties wishing further information can have it, and samples of impressions furnished by addressing,

OAK LEATHER BELTING

HOYT BROTHERS,

SUCCESSORS TO REESS & HOYT,

Man'fty, 210, 212, and 214 Eldridge St. }
Store, No. 40 Spruce Street, } NEW YORK.

To Belts of this manufacture have been awarded Gold and Silver Medals and Diplomas from almost every Fair and Institute throughout these United States, the last having been given by the American Institute, New York, in October, 1853. The Belting is altogether of superior quality, and every branch of the business is conducted under the personal superintendence of the principals. The Hides selected by themselves from the best City Slaughter, tanned at their own Tannery, sent down fresh from the Vats to the Factory, and then curved, cut into the required widths, and thoroughly stretched, cemented, and riveted by men of experience and so made that this Belting is guarantied to run evenly and truly on the pulleys and give a power of over twenty per cent. above banding of any other manufacture. For running in damp or wet places, a patent cement is used which is also guarantied.

Manufacturers, Machinists, and all using Belting are invited to inspect.

PIANOS
AND
MELODEONS

GUITARS AND MUSIC.

HORACE WATERS,

333 BROADWAY, CORNER OF ANTHONY ST., N. Y.

EXTENSIVE PUBLISHER OF

MUSIC AND MUSICAL MERCHANDISE,

Dealer in all kinds of Musical Instruments,

Exclusive Agents for the sale of T. GILBERT & CO'S celebrated

PIANO FORTES

Both with and without the much admired Æolian; and for their Upright, Grand, and Bouderi Pianos, for small rooms. These Pianos are warranted to stand any climate. T. G. & Co. are the owners of the Æolian patent right; and are prepared to furnish a more perfect instrument, and at a lower price, than any other house. Nearly 2000 Æolians have been applied within the last eight years, and the demand is rapidly increasing. They are now applying ten Æolians a week. T. G. & Co. have recently got up a new curved scale, which for smoothness, depth and power, challenges competition. One great point of superiority which these instruments possess over all others, is their firmness and long standing in tune. Prices same as at the manufactory, wholesale or retail. Every instrument warranted to give entire satisfaction.

SMITH'S SUPERIOR MELODEONS.—These Melodeons are tuned the equal temperament like Æolian pianos, and are superior to any in use, the harmony being equally good in all the keys.

MARTIN'S GUITARS.—These Guitars are the best made in the world; they need no commendation.

BROWNE'S SINGLE AND DOUBLE ACTION HARPS.

NEW MUSIC STORE.—Mr. Waters has also purchased the entire stocks of Music Plates and Copyrights of four publishing houses, and with his own publications, is prepared to offer one of the most complete catalogues of Music in the United States. He has also made arrangements with some of the best composers in this country and Europe for their compositions. Also, new Music from all parts of the U. S. as soon as published. Dealers, Teachers and Seminaries supplied on the most liberal terms. Second hand Pianos at great bargains—prices varying from $40 to $150, and a large assortment always kept on hand to supply orders.

MOSS'

Istrian Tooth Wash.

In introducing this preparation to the public, the proprietor would wish simply to state its qualities and refer to the certificate below, from the well known and respectable Dentists, as testimony of its excellence.

The Istrian Wash is not the result of a happy discovery, but of many and tedious experiments which have been successful in producing a preparation calculated to answer every purpose that would be desired. It cleans and polishes the Teeth, makes the Gums firm and healthy, and communicates a pleasant taste and agreeable odor to the mouth and breath; at the same time it is incapable of producing any hurtful effect on the Teeth or Gums.

☞ Give it a trial; it will speak more than volumes of praise.

J. MOSS, CHEMIST,
Merchants' Hotel, St. Louis, Mo.

We, the undersigned, certify that we have examined and used the "Istrian Tooth Wash," prepared by J. Moss, and consider it superior to any preparation, for a similar purpose, that we have yet seen; its effects in cleansing the Teeth and in giving the Gums a fine and healthy appearance are unequalled. We are satisfied, too, from a knowledge of the articles of which it is composed, that its use would not result in any injury to the Teeth, an effect produced by many of the popular preparations now used.

JOBBING DONE AT THE SHORTEST NOTICE.

SELPHO'S FIRST PREMIUM ANGLESEY LEG,

Introduced into the country and made solely by

WM. SELPHO, . . . No. 24 Spring Street, New York.

This description of Artificial Leg derives its name from the celebrated Marquis or Anglesey, who lost his leg in the battle of Waterloo, by whom it had been adopted and worn ever since its first invention by the late ingenious Mr. Potts, of London, to whom the present artist was 11 years a pupil and assistant.

"I have seen the artificial Leg of Mr. Selpho ; its construction appears excellent and well calculated to answer all the objects desired. But the best of all is the proof of those who wear them ; this is positive and undeniable. Some of my friends whom I have mutilated inform me they are superior to all others.

"VALENTINE MOTT, *Prof. of Surgery, University of N. Y.*"

Also, SELPHO'S ARTIFICIAL HAND—an entirely new and useful substitute for a lost hand, so arranged that the wearer can open and shut the hand by means of the remaining stump. W. S. will give further information by application or by letter, post paid.

LEATHER BANDING

The only Patented Banding in the United States.

These Bands are made from the best Oak Leather, and from the heart or solid part only, of Leather trimmed expressly for the purpose. They are thoroughly stretched, cemented, and riveted together, and made to run straight, having a full and perfect bearing on the Drums and Pulleys. They can be furnished of any length, and from one to thirty inches wide, either single or double; and they are warranted to please the purchaser.

Also, Round Lathe and Governor Bands, with a full assortment of Lace Leather, Rivets and Burrs, Hammers, Setts, Knippers, Punches, and all other necessary articles.

Apply to **WM. KUMBEL, Patentee,**
No. 33 Ferry Street, N. Y.

N. B. Those using Bands are apprised that there are other Band Makers using the term "Patent," merely from a Patent Burr, or being stretched on a machine patented for other purposes.

By Royal Letters Patent

HERTS BROTHERS

AMALGAMATED IRIDIUM ZINC & PLATINA

PENS

WARRANTED NOT TO CORRODE.

HERTS BROTHERS

Having been many years engaged in the manufacture of Metallic Pens, and during that time having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a pen, on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This pen will be found an invaluable article in Offices, as they never need wiping; also to Banks and Schools, as they will not spatter nor cut the thinnest paper, and are warranted anti-corrosive.

Caution.—The universal celebrity of these pens having induced certain disreputable makers to foist on the public a spurious imitation, it will please be observed that each genuine pen is stamped "Herts Brothers' Patent, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

MANUFACTORY, BIRMINGHAM, ENGLAND.

May be had, Wholesale, at the Manufacturers' Depot,

A. RANNEY,

PUBLISHER AND WHOLESALE AND RETAIL

DEALER IN

MAPS AND BOOKS,

Adapted particularly to the wants of Traveling Agents,

No. 195 BROADWAY, Between Fulton and Dey Streets,

NEW YORK.

A. R. is publisher of the PEOPLE'S MEDICAL LIGHTHOUSE, a celebrated Treatise on diseases of the Lungs, Causes, Preventions, Remedies and cure of consumptions, Marriage Guide, &c., by Dr. H. K. Root, A. M., M. D.

He also keeps constantly on hand the largest assortment of MAPS, GUIDES and HANDBOOKS that can be found in any establishment in the United States. Catalogues sent to the address of any person wishing to engage in the sale of Maps and Books, upon application by letter (post-paid) or otherwise.

☞N. B. 1000 Agents can be constantly and profitably employed in the sale of the MEDICAL LIGHTHOUSE and other publications embraced in my Catalogue.

ADOLPHUS RANNEY.

C. T. ROGERS,

Would respectfully inform his friends and the public, that he has recently removed from his old rooms, on the corner of Fourth and Chestnut streets, to

39 1-2 FOURTH STREET,

Directly opposite the Planters' House, ST. LOUIS, MO.,

Where he has far better facilities for producing FIRST CLASS PICTURES, than at his former well known stand. Mr. R. invites the attention of those desiring something SUPERIOR and UNIQUE, in the way of

DAGUERREOTYPES,

TO CALL AT

HIS NEW ROOMS,

Where he keeps constantly on hand an excellent assortment of Common and Fancy Cases, Frames, Gold Lockets, Pins, Rings, &c., and will be happy to wait on all who may favor him with a visit. His rooms are

Easy of Access, being up only one Flight of Stairs.

He has also the advantage of a LARGE SKYLIGHT, and every improvement that can facilitate the making of Photographic Likenesses equal to any made in or out of St. Louis,

And without the aid of Foreign Operators.

CHARGES REASONABLE.

PHILADELPHIA MEDICAL HOUSE,

ESTABLISHED 20 YEARS AGO,

BY DR. KINKELIN.

The oldest, surest, and best hand to cure all forms of Secret Diseases, Diseases of the Skin, and Solitary Habits of Youth, is Dr. Kinkelin,

North West corner of Third and Union Streets, between Spruce and Pine,
One and a half Squares from the Exchange, Philadelphia.

TAKE PARTICULAR NOTICE.

There is a habit which boys teach each other at the academy or college—a habit indulged in when by themselves, in solitude, growing up with the boy to manhood, and which, if not abandoned in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating affections. Few of these who indulge in this pernicious practice, are aware of the consequences until they find the nervous system shattered. The more this unhappy condition is prolonged, the more frequent, involuntary and alarming the evil, and if not arrested speedily, the WILL soon loses all control and becomes a mere slave of depraved passions—the mental and intellectual in man are soon overshadowed by the corrupt and animal. The unhappy victim shuns society, avoids the very face of man, and still more of woman—becomes weak, pale, emaciated—with failing sight, hearing, memory, mind—and with an undefined dread of coming calamity, and an aversion to all the business of life, he soon sinks into a condition of listlessness, indifference, and lethargy, from which no common skill can arouse him.

Let him brace his nerves, and rise with the last efforts of masculine fortitude to combat the evil. To all such it must be obvious that the very first course to be adopted is a reinvigoration of the organic system so particularly and fearfully affected, and this Dr. Kinkelin can with certainty promise to all who apply for such a renovation of strength, manhood, and a contented mind.

Let not the sufferer pass by this suggestion unheeded, for in how many cases may it not be regarded as a positive rescue from death!

Too many think they may hug the secret to their own hearts, and cure themselves. Alas! how often is this a fatal delusion, and how many a promising youth, who might have been an ornament to society, has faded from the earth!

YOUNG MEN,

Let no false modesty deter you from making your case known to one who, from education and respectability, can alone befriend you. He who places himself under Dr. KINKELIN'S treatment, may religiously confide in his honor as a gentleman, and in whose bosom will be forever locked the secret of the patient.

COUNTRY INVALIDS,

Finding it inconvenient to make personal application, can, by stating their case explicitly, together with all their symptoms, (per letter, post paid,) have forwarded to them a chest containing Dr. K's medicines, appropriated accordingly, and be cured at home.

Strictures of the urethra, weakness and constitutional debility, promptly cured, and full vigor restored. All letters post paid.

☞ A remittance of 25 cents in a letter, post paid, addressed to Dr. Kinkelin, Philadelphia, P A. will secure his Book on the Secret Infirmities of Youth.

1847. " " " Mechanics' Institute, Boston.
1849. " " " Franklin Institute, Pennsylvania.
1849. " " " Franklin Institute.
1850. Diploma and Medal, Mechanic's Institute, Boston.
1851. PRIZE MEDAL, Great World's Exhibition, London.

MITCHELL & RAMMELSBERG,

Columbia Street, bet. Main and Sycamore, Cincinnati, O.

We are manufacturing and keep constantly on hand, a large and general assortment of

FURNITURE,

Embracing all the various articles needed in furnishing, from plain and cheap to the most elegant and fashionable; and from our long experience and very superior facilities for manufacturing, we feel assured we can offer inducements to purchasers equal if not superior to any house in the Trade, East or West.

We have also a few articles not to be found West of the Mountains, among which are "O'Neil's Patent Lounge;" also, the Invalid's Recline and Arm Chair, in which a person can be placed in twenty or more different positions. Invaluable for the Sick! Also, our Patent Dove-tail Self Fastening Bedstead, so constructed that there is no harbor for Vermin; so that any person can put them up or take them down in a few moments time.

A liberal discount made to the Trade, or those who buy to resell.

For Violins and Guitars, which can be applied to any Guitar or Violin;

Hall & Sons' Celebrated American Guitars;

Wholesale Agents for the celebrated

MELO-PEAN,

A new instrument, destined to supersede all other styles of Reed instruments now in use.

Though patented several years ago, the patentees have been constantly engaged in perfecting and improving it, being determined to leave *no possibility of any future invention superseding it.* They now pronounce it a perfect Instrument, and as such it is placed before the public. One of the principal advantages claimed for the Instrument is, the *manner of blowing;* which, after a little practice, to overcome the old Melodeon method, (with those who have used Melodeons,) will be found not only *less fatiguing*, but also *capable of producing effects impossible to attain on any other Instrument.*

The tone can be varied from the LIGHTEST WHISPER OF THE ÆOLIAN HARP, to the full power of an Organ, and this without extra exertion on the part of the performer.

When played light, the tone is similar to the soft, sweet tones of the Flute; but when used in full power, resembles the *beautiful combination of Reed and Pipe stops so much admired in the large Organ.* No other instrument, except the Organ, can produce this effect; and there is none which can give expression to the feelings of the performer as accurately, and with so little effort, as the MELO-PEAN. So susceptible is it, that even the tremulous tone, so bewitching in BOARDMAN & GRAY'S CELEBRATED DOLCE CAMPANA ATTACHMENT, can be produced with perfect ease.

These Instruments are *all made in Piano style*, with rich Rosewood Cases, and at the following prices:

No. 1,	**Piano Style,**	**Five Octave,**	**plain square corner,**			**$ 80 00**
No. 2,	"	" "	**round corner,**			**100 00**
No. 3,	"	" "	**two setts Reeds,**			**125 00**
No. 4,	"	" "	" " "	**extra legs,**		**130 00**
No. 5,	"	" **Five 2-3** "	" " "	" "		**140 00**
No. 6,	"	" **Six** "	" " "	" "		**150 00**

We would advise all who contemplate purchasing an instrument for Church or Parlor use, to call and examine this.

The Great Problem Solved!!

DR. MORSE'S INVIGORATING

C. H. RING, Proprietor,

192 Broadway, New York.

CORDIAL

It is the policy of self-sufficient pretension to deny and condemn every great discovery or invention that conflicts with the traditional theories of "Old Fogyism," or any branch of science. Even with ten thousand unimpeachable proofs of the permanent cures of nervous diseases effected by Morse's Invigorating Elixir staring them in the face, professional bigots may be found who still contend that there is no exhilarant, no stimulant in nature, the curative action of which is not weakened by repetition, or naturalized by subsequent prostrations. But as the would-be philosophers who predicted the failure of ocean steam navigation and the electric telegraph have been shamed and silenced by the rushing keels of our steam leviathans, and by lightning stenography, so is this

PEERLESS INVIGORANT

Destined to shame and silence those who deny its virtues, simply because it has opened a new era in the annals of medicine, and scattered into thin air the dogmas of a stolid school, who cling to the obsolete, and would fain have the world suppose that nothing new can be true, and that progress is only another name for dangerous innovation. Let the host of the cured, who have been raised from weakness to strength, from the depths of despondency to the full enjoyment of mental and bodily health, by means of this Great Specific, answer to unbelievers. Clouds of witnesses, and a chain of testimony, without a thread or a flaw, attest its efficacy, and demonstration gives the lie to doubt. The evidences come from all sections of the Union; it is volunteered by multitudes of both sexes; it refers to every variety of nervous diseases, and to all complaints originating in the digestive organs; in other words, to more than half the maladies incident to the human race.

The dyspeptic patient, whose stomach has lost the power of duly converting food into a life-sustaining element, is relieved by a single course of this extraordinary tonic. The gastric fluid re-acquires its solvent powers, and the crude nutriment, which was a load and burden to the sufferer, while his digestive organization was paralyzed and unstrung, becomes, under the wholesome revolution created in the system, the basis of strength, activity, and health. The nervous sufferer whether tormented by the acute physical agony of neuralgia, tic-doloreux, or ordinary head-ache, afflicted with vague terrors, weakened by periodical fits, threatened with paralysis, borne down and dispirited by that terrible lassitude which proceeds from a lack of nervous energy, or experiencing any other pain or disability arising from the unnatural condition of the wonderful machinery which connects every member with the source of sensation, motion, and thought—derives immediate benefit from the use of this cordial, which at once calms, invigorates, and regulates the shattered nervous organization.

Females, who have tried it, are unanimous in declaring the Elixir to be the greatest boon that woman has ever received from the hands of medical science. They have even broken through the constitutional diffidence of the sex, and certified to its invigorating properties. Weakness, and the innumerable complaints of which it is sometimes the consequence, has blighted the hopes of a married pair, and doomed them to a childless old age. This powerful restorative is absolutely infallible in all such cases, imparting to the whole system a healthful vigor, and sustaining, without the possibility of a relapse, until the constitution itself sympathizes with the organization, and the cure is entire and permanent.

Morse's Invigorating Elixir has a direct, immediate, and astonishing effect upon the appetite. While it renews the strength of the digestive powers, creates a desire for the solid material which is to be subjected to their action. As an appetizer, it has no equal in the pharmacopœia. If long life, and the vigor necessary to its enjoyment, are desired, this medicine is indeed of priceless worth. Arabia, where the principal ingredients in its composition have been used for ages by the wandering tribes, has been noted from the earliest period of history for the longevity of its inhabitants, and they universally regard it as a means of prolonging human existence beyond the ordinary span. In the Cordial this peculiar property is not only preserved but rendered more effective by concentration.

CAUTION.—Dr. Morse's Invigorating Cordial has been counterfeited by some unprincipled persons. In all cases the genuine article will have the proprietor's fac-simile pasted over the cork of each bottle, and the following words blown in glass:—"DR. MORSE'S INVIGORATING CORDIAL,—C, H. RING, PROPRIETOR, N. Y." The cordial is put up highly concentrated, in pint bottles, price $3 per bottle, two for $5, and six for $12. C. H. RING, PROPRIETOR, 192 Broadway, New York.

Sold by Druggists throughout the United States, Canada, and the West Indies.

RAILROAD
FURNISHING WAREHOUSE
CINCINNATI, O.

The subscriber having established himself in this city as a manufacturer of Railroad Material, and Agent for manufacturers, is prepared to fill orders for the following articles:

- Railroad Spikes, of every variety of form.
- Car and Tender Axles, of approved quality and finish.
- Car Wheels, Spoke and Plate, separate or fitted to the Axle.
- Spring Steel, for Car and Locomotive and Carriage purposes.
- Locomotive Tire, in bar, or bent and welded.
- Frog Steel.
- Ventilators, Locomotive Lanterns.
- Car Lamps and Lanterns, Patent Balances.
- Sparker Cloth, for Spark Arresters.
- Canvas for covering Car Roofs.
- Rubber Springs, "Ray's Patent."
- Rubber Hose and Belting, Head Linings and Enameled Leather.
- Boiler Rivets, Wrought Nuts and Washers,

Confining his business almost entirely to such articles as appertain to Railroad furnishing, and possessing advantages by his connection with manufacturers which will enable him to supply any of the articles required by Railroad Companies and Car Builders, he solicits the patronage of Western Companies and builders, and will endeavor to give satisfaction in the execution of their orders.

Having been appointed Agent for "Ray's India Rubber Springs and Hose," orders will be filled by him at the factory prices, adding carriage.

Having had large dealings with the various Companies now in operation in the West, he takes the liberty of referring to them for any personal information which may be required, as well as for the character of articles furnished by him.

A. S. WINSLOW,
Nos. 9 and 11 West Second Street, between Main and Walnut, Cincinnati.

NEWPORT IRON WORKS,
NEWPORT, KY.

Having completed extensive alterations and additions, is now prepared to supply Railroad Companies, Locomotive and Car Builders, with

LOCOMOTIVE TIRE,

PREFATORY.

The compilation of this work has been attended with a great deal of labor and expense. Every effort has been made to procure full and accurate information from all parts of the two States of Illinois and Missouri, and the publisher takes pleasure in presenting the result of those efforts for the patronage of a generous public, indulging the hope that they will overlook imperfections and give him full credit for the large amount of valuable information hereby afforded.

Many difficulties have been encountered in the compilation of this book on account of the vast extent of territory embraced, and the lack of facilities for reaching many remote portions of the country. It is believed, however, that an impartial examination will satisfy any one as to its general correctness and utility.

With these brief remarks, "The Illinois and Missouri State Directory" is confidently committed to the current of popular favor by

THE PUBLISHER.

JURISDICTION OF THE COURTS OF ILLINOIS.

By the constitution of the state, the judicial power of the state is vested in one supreme court, in circuit courts, in county courts, and in justices of the peace. Inferior courts of civil and criminal jurisdiction, of uniform organization and jurisdiction, may be established in the cities of the state.

I. *The Supreme Court* consists of three judges, two of whom form a quorum, and the concurrence of two is necessary for a decision. The state is divided into three grand divisions, and the electors of each division elect one of the said judges for the term of nine years. The judge, having the oldest commission, is the chief justice. One of the said judges goes out of office every three years, their terms being so arranged. The supreme court has original jurisdiction in revenue cases, cases of mandamus, habeas corpus, and in cases of impeachment. It has appellate jurisdiction in all other cases. It holds one term annually in each of the grand divisions of the state. The judges receive a salary of $1,200 each, per annum. The supreme court is holden in the first grand division at Mount Vernon, on the second Monday of November; in the second, at Springfield, on the second Monday of December; in the third, at Ottawa, on the second Monday of June, annually. The supreme court has a clerk in each grand division, who is elected for the term of six years. No person is eligible to the office of judge of any court in this state who is not a citizen of the United States and this state, and a resident of the state

five years next preceding his election, and of the division, circuit, or county, in which elected, two years.

The state is divided into fifteen judicial districts, in each of which a judge is elected by the voters thereof for the term of six years, and until his successor shall be appointed, commissioned, and qualified. In each circuit, there shall be two or more terms of the circuit court held annually. The circuit courts have jurisdiction in all cases in law and equity, and in appeals from all inferior courts. Appeals and writs of error may be taken from any circuit court to the supreme court in that grand division in which it is situated, and by consent of all parties to the next grand division.

The qualified voters of each county elect a circuit clerk for that county, who holds his office for four years, and until his successor is elected and qualified.

All vacancies in supreme and circuit courts are filled by election, except when the unexpired term does not exceed one year, when the executive may appoint.

Judges of supreme and circuit courts are not eligible to any office of public trust or profit in this state or the United States, during the term for which they are elected, and one year thereafter.

II. *County Courts.*—In each county there is a court called the county court, which has one judge elected for four years, etc. Its jurisdiction extends to all probate matters, such as granting letters of administration and testamentary, allowing claims against estates of deceased persons, and settling said estates; also in insolvent debtors' cases, etc.

The county court is a court of record, with a clerk and seal. It has concurrent jurisdiction with the circuit court in hearing and determining all applications for the sale of real estate of deceased persons for payment of their debts.

The county judge is a conservator of the peace, and has the same civil and criminal jurisdiction as justices of the peace, and has the same power to preserve order and punish contempts when in session as the circuit courts. The county court acting as a probate court, sits regularly on the first Monday of every month, except the months of December, March, June, and September, and on the third Mondays of said months. It sits with two associate justices of the peace elected for such purpose, in each county not having the township organization, for the transaction of county business, on the first Mondays of December, March, June, and September, in every year. In counties having the township organization, the board of supervisors perform its functions in relation to county matters, such as assessing and levying taxes, etc., allowing claims against counties, and supervising county property.

Appeals and writs of certiorari may be taken from the county court, sitting as a court of probate and insolvency, to the circuit court of the county.

There is elected by the electors in the several counties, at the same time that the county judge is elected, a county clerk, who holds his office for four years, and until his successor is elected and qualified. He is to keep his office at the county seat, and must give bonds in $3,000 to perform his duties faithfully.

By statute, the clerk of the circuit court is recorder of deeds in each county.

In each of the judicial circuits of the state there is a state's attorney elected, who holds his office for four years, and until his successor is commissioned and qualified. It is his duty, upon request, to attend all examinations for felonious crimes, and

upon writs of habeas corpus; and also, it is his duty to attend all the circuit courts in his circuit, and to commence and prosecute all actions, suits, process, indictments and prosecutions, civil or criminal, in which the people of the state or any county may be concerned; and upon request, is to give his opinion upon matters of law to any county court, or justice of the peace, where the people of the county are concerned.

A sheriff is elected in each county in the state, who holds his office for two years, and in addition to his duties as sheriff, in counties where the township organization does not prevail, is *ex-officio*, collector of taxes. Where the township organization prevails, town collectors perform this duty.

All judges and state's attorneys are commissioned by the governor.

County judges, clerks, sheriffs, and other county officers, for wilful neglect of duty or misdemeanor in office, are liable to indictment by grand jury, and trial by petit jury, and, on conviction, to removal from office.

All processes, writs, and other proceedings, shall run "in the name of the people of the state of Illinois." All prosecutions shall be carried on "in the name and by the authority of the people of the state of Illinois," and conclude "against the peace and dignity of the same."

Besides the foregoing courts, which are common to the whole state, there is established in the county of Cook, a court, called the "Cook County Court of Common Pleas," having the same general jurisdiction as the circuit court, and from whose judgments, appeals and writs of error lie to the supreme court, and which is also specially authorized to enter up judgments by confession in vacation, which cannot be done in the circuit courts. This court has eight terms in each year, six of said terms being called vacation terms, (at which any business is in order except trial by jury, and even that, by consent of parties, may be had,) and two trial terms.

The circuit court of Cook county has four terms, two of them being vacation, and two trial terms. There is also an inferior court of limited jurisdiction established in the city of Chicago, called the Recorder's Court of the city of Chicago. It is a court of record, having a clerk and seal; has concurrent jurisdiction in the city with the circuit court in all criminal cases, except treason and murder, and in civil cases where the amount in controversy does not exceed $100, and in cases of appeals from justices of the peace within said city. Appeals may be taken therefrom to the circuit court. The judge of this court is called the "Recorder of the City of Chicago," and, with the clerk, is elected for five years.

The Cook county court of common pleas is a court of record, having a seal and clerk. The judge and clerk of this court are each elected for the term of four years.

III. *Justices' Courts.*—In each county of the state justices of the peace are elected; in counties where the township organization prevails, two for each town, together with a like number of constables, and in the other counties, two for each precinct, except that in which the county seat is located, where three are elected, together with a like number of constables. Justices and constables hold their offices for four years, and until their successors are elected and qualified.

The jurisdiction of justices of the peace in civil matters extends to actions of debt and assumpsit, where the amount claimed does not exceed $100. To suits for rent and distress for rent on landlord's warrant, where amount claimed does not exceed $100. In debt for trespass for cutting timber, where amount claimed does

Richardson, B.	

exceed $100. In all actions of trespass to personal property, and of trover, where amount claimed does not exceed $100. In all actions where an executor or administrator is party plaintiff, and amount claimed does not exceed $100, and where they are defendants, and amount claimed does not exceed $20. In all actions against sheriffs, coroners, and constables, for malfeasance, misfeasance, and nonfeasance in office, where amount claimed does not exceed $100.

In all cases of assault and battery, or frays, justices of the peace have exclusive original jurisdiction, except in incorporated cities and towns, when otherwise conferred by law. Either party may appeal, by giving bond within twenty days after judgment.

JUDICIARY.

SUPREME COURT.

LAWS RELATING TO THE COLLECTION OF DEBTS IN ILLINOIS.

When any debtor shall refuse to surrender his property for the satisfaction of any execution issued against it, the plaintiff or his attorney, may make affidavit of such fact before any justice of the peace for the county, and upon filing such affidavit with the clerk of the court from which execution issued, or with the justice of the peace who issued the execution, the clerk of court or justice may issue a writ against the body of the defendant.

In all actions to be commenced in any court of record in the state, founded on any specialty, judgment or contract in which the plaintiff or other credible person can ascertain the sum due or damages sustained, and will make affidavit before the clerk of the court from which process issues, or a justice of the peace, or if the plaintiff resides out of the state, before any person who may be authorized to administer an oath in the state or kingdom in which he resides, that the same is in danger of being lost, or that the benfit of any judgment which may be rendered will be lost,

Davis, Thomas G. C.	*Metropolis.*

unless the defendant be held to bail, and such affidavit be delivered to the clerk of the court, the clerk must issue a writ against the body of the defendant, with directions to the sheriff endorsed, to take bail.

When damages are unliquidated, the affidavit must state facts, and the nature and cause of action, and the clerk must fix the amount of bail.

When any person is arrested for debt on execution, or on original process, for the purpose of being held to bail, it is the duty of the officer having the custody of the debtor, at his request, to convey him before the judge of the county in which the arrest is made. The county judge must require of the debtor a complete schedule of his property of whatever description, with an account of the debts owing by the debtor at the time. The debtor may then take the oath prescribed by statute, and if no fraud appears upon examination of the debtor, or of the witnesses produced, and the debtor assign the property named in the schedule, not exempt, and produce the receipt of the assignee to the court, he is discharged.

The plaintiff in execution may, after the defendant has taken the oath prescribed, pay the sheriff the jail fees on the Monday of each week, and keep the defendant in jail until the debt is paid, at the rate of one dollar and fifty cents per day, upon the happening of which event the sheriff returns the execution satisfied by imprisonment.

If any creditor or his agent shall make complaint, on oath or affirmation, to the clerk of the circuit court of any county in the state, that his debtor is about to depart from the state, or has departed, with the intention of having his effects and personal estate removed without the state limits, to the injury of such creditor, or stands in defiance of any officer authorized to arrest him on civil process, so that ordinary process of law cannot be served upon him, and that he is indebted to the creditor in a sum exceeding twenty dollars, specifying the nature and amount of such indebtedness, such creditor may sue out a writ of attachment against the property of the debtor, or so much thereof as will satisfy the debt sworn to with interest and cost.

When any creditor or his agent shall make oath or affirmation before any justice of the peace in the state, that any non-resident is indebted to him in a sum not exceeding one hundred dollars, and in similar cases as in the circuit court, such justice may issue an attachment against his personal estate. Attachment may issue, in the case of a non-resident, against all his property, for a sum exceeding twenty dollars, from the clerk of the circuit court of any county.

Imprisonment for debt is forbidden by the constitution, except in case of the debtor's refusal to deliver up his estate for the benefit of creditors as prescribed by law, or when there is strong evidence of intentional fraud.

HOUSEHOLD AND HOMESTEAD EXEMPTION LAWS OF ILLINOIS.

Wearing apparel necessary for use is exempt, as also the following articles when owned by the head of the family: necessary beds and bedding; cooking utensils;

household furniture to the value of fifteen dollars; one pair of cards; two spinning wheels; one weaving loom and appendages; one stove and its pipe, put up for use in his dwelling; one milch cow and calf; two sheep, and the fleeces taken from them; or the fleeces of two sheep for each member of the family, provided they have not been purchased by any debtor owning sheep, together with the yarn and cloth that may be manufactured from the fleeces; and sixty dollars' worth of property suited to the condition of, and to be selected by, the debtor; three months' provision and fuel for the family, and necessary food for stock exempted from execution (*Rev. Stat.*, p. 306); any lot not exceeding ten acres, appropriated for, and used as, a burying-ground, and recorded as such in the recorder's office of the county, shall be exempt from taxation; and when sold in lots for burying the dead, the lots shall be exempt from execution or attachment, provided that no person shall hold more than one-eighth of an acre so exempt. (*Rev. Stat.* p. 572.)

Upon the death or desertion of the head of the family, the family shall be entitled to the like exemption.

Homestead.—The lot of land and the buildings attached, to the value of one thousand dollars, owned and occupied as a residence by a householder having a family, are exempt from forced sale for contracts made after July 4th, 1851. Upon the death of the householder, the exemption continues for the benefit of his family until the youngest child becomes of age, and until the widow dies. No release of the exemption is valid unless in writing, subscribed by the householder, and acknowledged as is a conveyance of real estate. This exemption, however, does not prevent the sale of land for taxes or debts incurred for the purchase or improvement of the land, or incurred prior to the recording of notice of exemption.

If the creditor or officer holding the execution think the property claimed is worth more than one thousand dollars, the officer shall summon six qualified jurors of his county, to appraise the premises upon oath. If, in their opinion, the property can be divided without injury to the interests of the parties, they may set off land, including the house, to the value of one thousand dollars, and the residue shall be sold by the officer. But if otherwise, they shall make and sign an appraisal of the property, and deliver it to the officer, who shall give a copy of it to the execution debtor, or to some one of the family of suitable age to understand its nature, with a notice attached, that unless the debtor pays to the officer the excess over one thousand dollars, or the amount of the execution within sixty days, the premises will be sold. If he fails to do so, the officer may sell the premises, paying from the proceeds one thousand dollars to the execution debtor, which shall be exempt from execution for one year thereafter, and applying the balance on the execution. But no sale can be made unless over one thousand dollars are offered; otherwise the officer shall return the execution unsatisfied.

EASTERN LEATHER STORE,

243 LAKE STREET, 243

Near the New Bridge, CHICAGO.

KELLY & BLACKBURN,

WHOLESALE DEALERS IN

English, French, Philadelphia, and Eastern

LEATHER.

Keep a large and well-selected STOCK, to which they would particularly call the attention of Boot Makers and dealers who are desirous of purchasing a superior article, at the lowest market price. Their stock comprises all kinds of

LEATHER, LASTS, and FINDINGS,

required by Boot Makers. Their CALF, KIP and UPPER, are pliable, mellow, and durable, and will resist water. Their SOLE LEATHER is solid and well tanned.

K. & B. are determined to keep their prices down to the lowest possible point, so as to give Boot Makers an opportunity of using the best description of leather, at prices usually asked for the most inferior kinds.

CASH PAID FOR HIDES.

Bell's Commercial College,

CHICAGO.

INCORPORATED BY THE LEGISLATURE OF ILLINOIS, FEB., 1853.

DIGBY V. BELL, President.

Professor of Double-Entry Book-Keeping and Commercial Calculations, and Lecturer on the General Laws of Trade, Exchange and Accounts.

Hon. ANDREW HARVIE, A.M.,
PROFESSOR OF COMMERCIAL LAW.

JOHN F. STARR,
PROFESSOR OF PENMANSHIP.

Board of Trustees.

Digby V. Bell,
William B. Ogden,
Walter S. Gurnie,
Hiram A. Tucker,
John P. Chapin,
John H. Dunham,
Charles V. Dyer,
John H. Kinzie,
Edw. J. Tinkham,
B. W. Raymond.

THE COLLEGIATE COURSE

Comprises instruction in Double Entry Book-keeping, in every variety of business; Mercantile Forms in general; an appropriate style of Business Correspondence; the art of detecting counterfeit and spurious Bank Notes; practical penmanship; a complete course of Commercial Calculations; the subjects of Commercial Law, and much other knowledge indispensable to correct business action.

☞ The character and routine of the instruction afforded in this School, and the training and discipline it adopts, fashions it after the model of a well-regulated Counting-House, and the Student is at once introduced to the practical workings of business, and the discharge of an Accountant's duties; and the *practical value* of this education is fully attested by its numerous graduates who now occupy responsible and lucrative stations in business.

To this Institution belongs a well-selected LIBRARY of over 1,000 volumes, affording entertainment and instruction in the various departments of useful knowledge and of general literature,—established for the gratuitous use and benefit of its Students; and there is also organized a LYCEUM or DEBATING SCHOOL, (composed of Students only,) in which subjects having a practical bearing on the interests or pursuits of Commerce and Trade, and of Political Economy generally, are discussed.

☞ The School is in session all the time—there being no vacations; and Students can therefore enter whenever they please; and, upon the payment of their tuition fees, have the privilege of completing the course of study at their option; and are entitled to all other privileges of the Institution during life, free of additional charge.

Diplomas, under seal, are awarded to Graduates. Circulars and Catalogues furnished gratuitously, on application to the President.

CHICAGO, May, 1854.

Established 1840.

DUFF'S MERCANTILE COLLEGE,

PITTSBURGH, PA.

Incorporated by the State of Pennsylvania with Perpetual Charter.

Board of Trustees.—Hon. Wm. Wilkins, Hon. James Buchanan, Hon. W. H. Lowrie, Hon. Moses Hampton, Hon. Chas. Naylor, Gen. J. K. Moorhead.

Faculty.—P. Duff, Principal, Author of the "North American Accountant," Professor of Double Entry Book Keeping, and Lecturer on Commercial Sciences.

L. H. Dalhoff, Professor of the Spenserian System of Penmanship.

N. B. Hatch of the Pittsburgh Bar, Professor of commercial law and lecturer on political economy.

Four assistants are employed in the Book Keeping department. Four spacious Lecture Rooms are occupied, and the Institution is considered the most extensive and perfectly organized in the United States. The Principal is the only Professor of Book Keeping in the Western States, known to have spent many years in the most extensive American and European Inland and Maritime Commerce. His students are known to be educated in many of the details of commerce not attempted in other Institutions. His system of Book Keeping is officially sanctioned by the CHAMBER OF COMMERCE and AMERICAN INSTITUTE of New York, as the most complete in the English language.

Double Entry Book Keeping applied to every department of commerce, Penmanship, Commercial computations. Daily Lectures on Commercial Law, Political Economy and Commercial Sciences.

Duff's Book Keeping, pp. 224 Harpers, New York. Price $1.50. "The most perfect combination of Commercial Science and practice in the English language."

Duff's Steamboat Book Keeping. Price $1.00. "A perfect system for keeping such books and accounts."

Merchants and steamers supplied with Book Keepers. Circulars mailed free.

Office of Egerton & Bro.

BALTIMORE, MD., MARCH 1, 1854.

We take the liberty of drawing your attention to the scheme of the Maryland Lotteries for the year 1854. The Lotteries in our State are drawn under State authority, through a sworn Commissioner, elected for the purpose, thus guaranteeing to the purchaser the fairness of the drawings. The great and repeated number of high prizes that have been distributed from our office has induced us to make this advertisement, and we hope you will avail yourself of the opportunity to address us by mail, and secure one of the high prizes for your own use. Being but Agents for the sale of Tickets, and the payment of all prizes guaranteed by the State of Maryland, it is much to our interest, as well as gratification, to sell the high prizes; and it has many times happened to us that we have made our correspondents RICH before we had the pleasure of a personal interview. We have sold during the past year, the following splendid prizes, which have been cast from Maine to Texas, we having a numerous correspondence in every State in our glorious Union: 1 of $80,000; 1 of $67,500; 1 of $24,940; 1 of $40,000; 4 of $20,000; 1 of $24,000; 5 of $8,000; 4 of 10,000; 38 of $5,000; and a number of $1,000, $500, &c.; in fact, scarcely a day passes that a respectable prize is not sent from our office.

We invariably answer letters by return mail, enclosing the tickets in a proper envelope, observing the strictest confidence, and after the Drawing is over, we send the Official Printed Drawing, duly certified to by the State Officer and Managers, with a written explanation of the result. All prizes bought at our office are payable, immediately after the Drawing, in current money. Bank notes of any State taken at par for Tickets.

Correspondents may place the utmost confidence in the regularity and safety of the mails, as, out of many thousand orders containing drafts and bank notes, from all parts of the United States, we have never yet had a valuable letter to miscarry. In making odd change, Post Office Stamps can at all times be obtained. Pay your postage to us, and we will pre-pay to you.

We have thus endeavored to be as minute as possible in all our details. If any important item of information has been omitted, the undersigned are always ready to answer letters of inquiry. In ordering Tickets, look over the list, select the Lottery, enclose the money, and direct the letter to our address. Be careful to mention your Post Office, County, and STATE.

A single trial may place in your possession a competency for life. Try us. Try us.

For particulars, send for our Monthly Circular of Lotteries. Address

CHAUNCEY JEROME.

Jerome Manufacturing Company.

MANUFACTURERS OF

CLOCKS.

NEW HAVEN, CONN.

WHOLESALE WAREHOUSES,

No. 175 Broadway, and No. 2 Cortlandt Street, New York, and 147 and 149 Hanover Street, Boston.

The extent of the business of this establishment may be inferred from a few lines extracted from a recent editorial correspondence of the New York *Journal of Commerce*, from New Haven. Speaking of the different Manufactories of the place, the writer observes:—One of the most conspicuous of these is Jerome's immense Clock Factory, in which upwards of 450 persons are employed, and more than 600 Clocks are daily manufactured. Mr. Jerome's works consist of twelve buildings, in which all the processes necessary for the commencement and completion of a Clock, (over 200,) are carried on; and each one is facilitated by the use of skilfully devised machinery. Last year Mr. Jerome made not less than 150,000 Clocks, and the number manufactured this year is expected to reach 200,000, valued at $500,000. This is a number greater probably than the joint production of all other similar establishments in the United States; and, notwithstanding the enormous supply during the present year, it has been unequal to the demand.

☞ *Dealers in Clocks will find it to their advantage to purchase of this house, whose facilities for manufacturing are such as to defy competition.*

WHOLESALE DRUGGISTS,

IMPORTERS AND DEALERS IN

English, French and Mediterranean Drugs and Chemicals, Swedish and German Leeches, Dye Stuffs, Paints, Oils, Perfumery, Window Glass, Apothecaries' Wares, &c.

NO. 100 FULTON STREET,

Corner of William, NEW YORK.

PERUVIAN FEBRIFUGE.

For the prevention and cure of Fever and Ague, Intermittent and Remittent Fevers, Liver Complaints, Jaundice, Dumb Ague, Dyspepsia. Nervous Headache, Enlargement of the Spleen, and all the different forms of Bilious Diseases.

This preparation is intended especially as a remedy for the prevention and cure of Fever and Ague, but it is equally adapted to other forms of disease, such as bilious, intermittent and remittent fevers, dumb ague, &c. It is the result of practical observation and experience for a number of years, in the treatment and cure of Fever and Ague, and such has been the uniform success in its use, that no case is known where this valuable remedy has failed to cure when timely administered. Its combination is entirely new, being widely different in its therapeutic effects and operation on the system, from other preparations designed to remove the disease. A single teaspoonful will, if timely administered, prevent an attack of Chills and Fevers, and while operating so effectually as a palliative, its permanency is equally reliable.

PRICE one dollar and fifty cents per bottle.

Prepared and sold, wholesale and retail, by A. B. & D. SANDS, Druggists and Chemists, New York. Sold also by druggists generally throughout the United States.

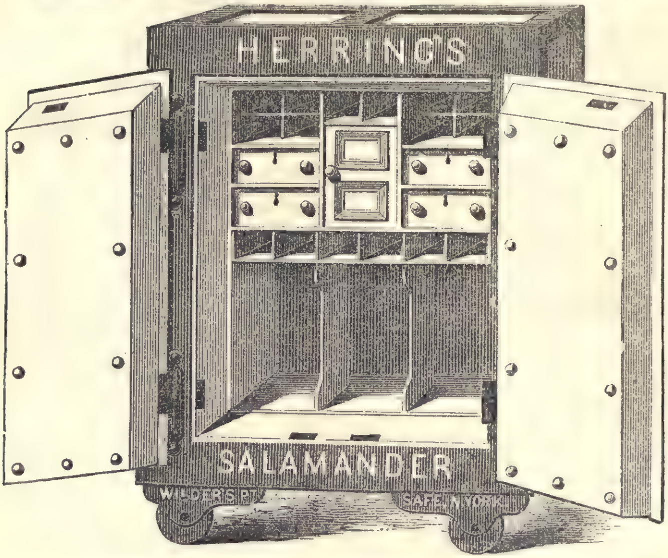
"HERRING'S PATENT"
WORLD'S FAIR
PREMIUM SAFE.



A Medal was awarded to Silas C. Herring, *at the World's Fair, London,* 1851.

Also, Herring's "Wilder's Patent" Salamander Safe,

Which subsequently obtained the Gold Medal at the Fair of the American Institute.

THESE SAFES ARE WARRANTED FREE FROM DAMPNESS.

The following is one of a thousand tests, all equally successful:—

BURNING OF THE "EMPIRE IRON WORKS."

New York, Nov. 18th, 1853.

Mr. S. C. Herring—*Sir:* The Safe bought of you about two years since, was in our office at the destruction of the "Empire Iron Works," on the morning of the 17th inst., and we are happy to say, that our books, paper, and money, in bank bills, were preserved in the safe, to our entire satisfaction. The safe was exposed to an intense heat for about *twenty-seven hours;* the castors, brass plates, &c., melted off, and yet a *valuable Gold Watch* was taken out perfect, and in good *time-keeping order.*

We shall not be without another of your Safes, and intend to call and select one early in the morning.

SLOAN & LEGGETT, *Empire Iron Works,*
Foot of East Twenty-Fifth Street.

AGENTS FOR HERRING'S SALAMANDER SAFES:

J. H. Alexander & Co., St. Louis, Mo.; C. L. Harmon & Co., Chicago, Ill.; William Bonnell & Co., Milwaukee; Geo. W. Sizer, N. O.

SILAS C. HERRING,

Manufacturer of the original Double, and Double Bevil Salamander Safe, and sole proprietor and manufacturer of Herring's Patent Safe, which was awarded the Medal at the World's Fair.

FREIGHTS,

BY STEAM ONLY,

FOR THE VALLEY OF THE OHIO,

AND ALL POINTS EAST, WEST, AND SOUTH.

FAST FREIGHT DISPATCH.

The New York, Baltimore, & Wheeling Line

Will forward Goods to all points on the OHIO and MISSISSIPPI Rivers, and to the interior of the Southern and Western States, at the lowest rates, and in the shortest possible time.

They will, through their Agents, receipt for time and price for delivery of Western Produce to any of the Eastern Cities, or will ship to Foreign Ports.

Their Agents in New York will receive, enter through the Customs, pay duties, and promptly forward over their line to destination, all Goods entrusted to their care.

The principal New York Dry Goods Houses have recommended this route in preference to all others, and the Agents of this Line are determined that it shall not lose reputation in their hands.

The Goods from the East are taken in First-class Steamers to Baltimore, thence over the Baltimore and Ohio Railroad to Wheeling, and by the splendid Steamers of the Union Line down the Ohio.

AGENTS.

Chester & Co., 93 West st., opp. Pier 13, N. R., N. Y.
Dunlop & Co., Baltimore.
Dorsey, Howard & Knox, Wheeling.
B. F. Conway & Co., Portsmouth, Ohio.
Geo. W. Cochrane & Co., Cleveland, Ohio.
Kennett & Dudley, Cincinnati, Ohio.
S. B. Poyntz, Maysville, Ky.
David Tatum & Co., St. Louis.

SHIPPER

Parker Vein Steamers, Pier 13, N.R.; also by Ericsson Line Steamers, at Bulkhead, bet. Pier 1 and 2, N.R.

And obtain Duplicate Through Receipts from Chester & Co., corner of West and Cedar Streets, opposite the Pier 13. Goods for the West and South should be marked, "Care of DUNLOP & CO., Baltimore." Goods for the East, "To the Care of CHESTER & CO., N. Y., and sent to any of the above Agents, will meet with the most prompt attention to destination.

☞ Placards will be furnished Shippers for pasting on Packages.

NEW HAVEN HOUSE

Nos. 412, 414 & 416 Broadway,

Over the N. Y. and New Haven R. R. Depot, New York.

The proprietors having leased the above establishment, solicit for it a continuance of the liberal patronage heretofore bestowed upon it, and intend permanently to oversee that all their arrangements for the comfort of their guests are satisfactorily carried on.

The House is situated in the most central part of the city, and having annexed the adjoining building on Broadway, renders it, for comfort and convenience, equal to any in the city. It contains over 100 light, airy, and neatly furnished sleeping rooms. Also, parlors and suits of rooms, suitable for families, &c. Passengers arriving in the cars can leave their checks at the office of the Hotel, and have their baggage conveyed to their rooms free of charge. A Porter will be in attendance at all hours of the night to admit Travelers.

BLANK BOOKS, PAPER,

STATIONERY, &c.

STATE COURTS OF MISSOURI.

I. *Supreme Court.*—The judges of this court are elected for six years by the qualified voters, and are re-eligible at the expiration of their term. Two sessions of the supreme court are held annually, one at Jefferson City and one at St. Louis. The attorney-general is, *ex-officio*, reporter.

II. *Circuit Courts.*—The State is divided into fourteen circuits. A circuit court is held twice a year in each county.

Its jurisdiction extends to all matters of tort and contract over $90 where the demand is liquidated, and over $50 where the agreement is parol. It has exclusive criminal jurisdiction, and a supervision over the county courts and justices of the peace, subject to the correction of the supreme court. The judges of the circuit court are elected by the qualified voters of their respective districts, for the term of six years.

III. *County Courts.*—The jurisdiction of these courts is limited to matters of probate and local county affairs, as roads, etc. A county court sits in each county, and is composed of three justices, who are elected by the people, and hold their offices four years. An appeal lies to the circuit court. The county court of St. Louis county is composed of seven judges. They are relieved from probate duties by the separate court above mentioned. In addition to the circuit and county courts, St. Louis has a court of common pleas, with a jurisdiction very similar to that of the circuit court, a criminal court, a distinct court of probate, and a recorder's court. The judges of the circuit and criminal courts are elected in the same manner, and for the same term as the circuit judges.

These are local tribunals, exercising jurisdiction only in their counties, except the recorder's court, whose jurisdiction is confined to small offenses and within the limits of the city. From the court of common pleas and criminal court, an appeal lies to the supreme court; and the judges of the common pleas are appointed like the circuit judges, with like tenures. The probate judge is elected by the people of the county for four years, and the recorder by the people of the city of St. Louis for two years.

EXEMPTION LAWS OF MISSOURI.

There is exempt from execution, wearing apparel of all persons; the tools and implements of a mechanic while carrying on his trade, and the following articles, if the property of a householder: Ten hogs, ten sheep, two cows and calves, and working animals to the value of sixty-five dollars; one plow and one set of plow-gears; one axe and one hoe, or any other property, real or personal, not exceeding in value one hundred and fifty dollars, chosen by the debtor, if he is the head of a family. Also, the spinning-wheels and cards, one loom, and apparatus necessary for manufacturing cloth in a private family; all the spun yarn, thread, and cloth manufactured for family use; flax, hemp, and wool, twenty-five pounds each; the wearing apparel of the family; two beds, with the usual bedding, and other necessary household and kitchen furniture, not exceeding twenty-five dollars in value; lawyers, physicians, and ministers may select books necessary to their profession in place of other property, at their option, and physicians also may select their medicines.

The property of the wife is exempt from execution against the husband if the debt was a security debt, or was contracted before marriage, or before the wife came into possession, or if it was a fine, or for costs in any criminal case against the husband. The husband's property is exempt from all liabilities contracted by the wife before marriage.

JUDICIARY.

CIRCULAR AND CATALOGUE
OF
JONES'
COMMERCIAL COLLEGE
OF
ST. LOUIS, MISSOURI.

Incorporated by the General Assembly, Jan. 24, 1849, with full authority "to grant Diplomas, award Degrees, confer Honors, and exercise all and singular the privileges common to Commercial Colleges authorized by law in other States."—*Charter, Sec.* 2.

Located on the South-East corner of Washington Avenue and Third Street.

FACULTY.

JONATHAN JONES, Master of Accounts,
President and Acting Professor of the Theory and Practice of Book-Keeping, Commercial Correspondence, etc. etc.

FRED. HENDERSON, Practical Accountant,
Permanent Associate in the Book Keeping Department.

JAMES SENTER, JAS. WARNOCK, PETER HAUGHEY,
Practical Accountants,
Associates in the Book-Keeping Department, Evening Session, 1851.

CHARLES STEWART, Professor of Mathematics,
In special charge of Commercial Calculations, etc.

S. D. HAYDEN, Professor of Penmanship,
In charge of the Writing Department.

JONATHAN JONES, Member of the St. Louis Bar,
Lecturer on Commercial Law.

JONES' COMMERCIAL COLLEGE.

TO THE MERCANTILE COMMUNITY.

AN OUTLINE OF THE PLAN OF INSTRUCTION IN THE ART OF DOUBLE-ENTRY BOOK-KEEPING-COMMERCIAL LAW, COMMERCIAL CALCULATIONS, AND PENMANSHIP.

There has been, in the mercantile community, a universal prejudice of long standing, touching the art of Double-Entry Book-Keeping, as ordinarily taught in the "Literary and Scientific Institutions" of our day, which the incompetency of many who have attempted to teach Book-Keeping theoretically, as well as the defects peculiar to their systems, have naturally enough created. *This prejudice is both well founded and just;* but if these institutions have mistaken Double-Entry Book-Keeping (A PRACTICAL ART) for an abstruse, complex and difficult *science,* and delivered long printed lectures upon its "Speculative Theory," or required the student to memorize arbitrary rules, and finally failed in the end to accomplish their object, does it hence follow that we are to have no improvement in the art of teaching? or, are systems founded upon entirely different principles — principles diametrically opposed to those in their bearing and practical application — subject to the same fate, and that, too, without a fair trial? *This conclusion is disingenuous, illogical and unjust.* It is obvious to every intelligent, practical accountant that Book-Keeping has a theory as well as a practice to be acquired, and to that young gentleman aspiring to the highest rank as a scientific and practical accountant, much will depend upon the demonstrator of those principles which are to govern him in the performance of his duties. The utility of Double-Entry Book-Keeping, in the management of accounts, is no longer questioned. Its perfect adaptation (with proper forms) to mercantile, steamboat, manufacturing and joint stock operations, has been so fully tested, that but few business men now consider their capital safe, where the books of the company are not kept by double-entry.

The only question is, how are young gentlemen, inexperienced in the management of accounts, by double-entry—*though familiarized with the general routine of business*—writing legible hands, and competent to perform the ordinary calculations of accountants, to be qualifed as practical book-keepers for the performance of their duties in the counting-house? Or, in other words, where is a supply of practical accountants, equal to the demand, to be obtained? To this we unhesitatingly reply, *They can only be taught, trained and qualified by practical accountants, who understand the entire routine of the counting-house, its duties and requirements.* Hence, no literary institution, school or college, ever did produce a single practical accountant, competent to assume the charge of a set of books, upon the ordinary class and text book plan of instruction.

But if inexperienced theoretical teachers fail to supply the counting-house with practical book-keepers, and the demand for such services induce experienced practical accountants to adopt teaching as a profession — if they organize an institution, with all the facilities known in the actual performance of their duties — if they teach young gentlemen, of good business habits, to perform their duties just as they have been taught, and use the exact forms and auxiliaries approved and adopted by our leading mercantile houses,—can any intelligent business man question their ability to produce just as thorough practical accountants as those raised in the counting house? Equally obvious will it appear to every unprejudiced, observing business man, that if a gentleman, of good business habits, be required to take a Blotter, containing every variety of entry that can possibly occur in the "counting-house," and put it through (in its proper shape) the Cash Book, Journal and Ledger, and give all the reasons involved in the opening, journalizing, posting, taking off the monthly trials, and finally in the closing of the Books, he must be competent to properly open, successfully conduct, and correctly close any set of Books, under all and every circumstance.

In this particular the operations at Jones' Commercial College are peculiar; instead of placing in the hands of the pupil, a treatise (such as Bennett's or Colt's Book-Keeping) containing lectures, rules, &c., to memorize or to copy, a practical Book-Keeper demonstrates the legitimate design of Debit and Credit, and then brings those principles to bear upon actual business transactions, such as occur in ever counting-house. The student being first taught the true nature of the relation that exists between the Merchant, the Salesman and the Book-Keeper, copies his Blotter, journalizes, posts, takes his monthly Trial Balances, &c., and proceeds in the practical discharge of his duties as though he were conducting a set of Books in an extensive establishment.

The practicability of this course, its superiority over all others, and its perfect adaptation to the making of thorough Accountants, have been fully tested in this community during the last thirteen years. Hundreds of young gentlemen out of employment, Mechanics unable to follow their pursuits, Salesmen, Second Clerks, &c., have been qualified for the Counting-house and Steamboat Clerkship, and placed in situations worth $600, $800, $900, $1.200 and $1.500 per annum—to whom personal reference will be given by calling upon the Principal, at the Book-keeping department; but for the convenience of those who may desire a more complete and extensive outline of the plan of instruction, or a personal interview with those who can speak from personal experience, he begs leave to refer to the following Report of Practical Accountants.

REPORT OF PRACTICAL ACCOUNTANTS.

The undersigned, pupils of Jonathan Jones, believing a more general knowledge of his peculiar mode of *imparting* instruction would be of public utility, and enable every young man, of good business habits, to realize the importance of taking a thorough course of Double-Entry Book Keeping in this College, before entering upon a business career, take this method of informing those who may not be acquainted with the design of this Institution, and wish to acquire a practical knowledge of accounts, that the plan of instruction adopted differs essentially from that ordinarily used in schools and colleges. Instead of memorizing a set of arbitrary rules, and studying long dissertations upon the theory of Book-Keeping, the young gentleman is at once introduced to the practical discharge of an accountant's duties, by transcribing his Day Book, journalizing, posting, taking his monthly trials, &c.—Thus he proceeds as though he were in charge of a set of Books in an extensive establishment.

"Year after year (in epitomized forms) he continues the opening, conducting and closing of Books, under all the variety of circumstances that can possibly occur; he beholds himself a merchant, with limited resources; he enters into numerous speculations, but, finally, encounters extensive losses and is foreclosed with heavy insolvency—he then becomes associated with a capitalist in business, and resumes his accustomed duties as an accountant."

In conclusion, permit us to state, that a great number of Mr. Jones' pupils are in charge of Books in responsible stations, as practical accountants, in this city, with whom many of us are personally acquainted: from the manner in which they discharge their duties as practical and accomplished Book-keepers, and from what we know ourselves, we do most unequivocally declare it as our opinion, that as thorough and as perfect a knowledge of the accountant's duties can be obtained in this School, as it is possible to receive in any counting-house in any number of years—the operations being the same to all intents and purposes. For further particulars, apply to us in person.

And one hundred and seventy more in this City in charge of Books to whom personal reference will be given.

TERMS.

A full Course of Double-Entry Book-Keeping—embracing Mercantile, Manufacturing, and Steamboat Book-Keeping ; Individual, Company, and Compound Company ; with Forms adapted to the Wholesale, Retail, Banking, and Commission *Business*, etc., etc. ; together with Accounts Current, Account Sales, and a complete system of Commercial Correspondence,	$30.00
Gas-Tax assessed on Night Pupils for each session,	1.00

Tuition fees payable in Advance.—The importance of this rule will appear evident to all. The tuition fees, *not being for time,* but for thoroughly qualifying the gentleman in that course for which he may be registered—*the pupil having the privilege of completing at option,* and of reviewing the same during life, free of additional charge—render it imperious that this rule should be invariably complied with.

The competency of each pupil to discharge the duties of an accountant, in charge of the most complicated books, or to sustain an examination before a committee of accountants, of his (the pupil's) own choosing, in every case, will be guaranteed.

STEAMBOAT BOOK-KEEPING.

From the simplicity of the practical forms now in use for Cash Book, Freight Book, Passage Book, &c.—the limited variety of transactions and uniform manner of adjusting each respective Trip's work, in the ordinary routine, consequent upon doing a cash business exclusively—many have been led to suppose Steamboat Bookkeeping to be a very simple and easy thing. While to the thorough accountant and experienced steamboat clerk such is the fact, in a great majority of cases the precise reverse holds good. That is—*Steamboat Book-Keeping, without a knowledge of the Mercantile, is more complex, varied, and difficult, than Mercantile Book-Keeping in the ordinary pursuits*—and why should it not be so? Steamboats incur responsibilities, contract debts, and deliver goods without pay, just as merchants do; they often speculate just as merchants speculate, and not unfrequently negotiate bills of exchange, to *"raise the wind"* or *"to make ends meet,"* under circumstances that would make a "Levee merchant" blush. I have known a gentleman to purchase a steamboat without a dollar in hand, drop her down to the wharf, *"stick up his shingle"* for *N. O.*, get a full cargo, step into one of our offices, effect an insurance on his "freight list," negotiate a bill of exchange on his agent in N. O. to pay charges and outfit here, make a successful trip or two, pay for his boat, and in sixty days on the look-out for a similar speculation; such, and three times as much more of a kindred nature, not unfrequently falls to the lot of a man but partially familiarized with the management of accounts, *to blunder through.* Understanding the nature of one account, he has left him an alternative, that is, to throw all transactions into his Cash Account, Recapitulate, and hand over a "Cash Memorandum" to his successor.

This clerk turns over a new leaf, counts the actual cash on board, and commences his work on *"a clean sheet,"* but pays no further attention to the "Cash Memorandum" *(it being no part of his business.)* The memorandum is soon misplaced or lost, debts due the boat remain uncollected, bills against her commence coming in—of which there is no entry in the books. The season advancing, and the receipts falling off, the *owners* conclude to "TIE UP;" whereupon the following interesting conversation takes place, viz:

Owners. Well, Capt. ——, what's the word?

Captain. Gentlemen, we have had a fine run, a splendid business, carried more freight and passengers, made better time, burned less wood, carried a smaller crew, had the best steward in the trade—indeed, gentlemen, it is acknowledged by all hands, in port and out of port, high water or low water, that she is *emphatically "the boat."*

Owners. Good morning, Mr. ——, (clerk;) what's the good news with you?

Clerk. Good morning, gentlemen. "Right side up!" Only give this boat a fair chance, and "SHE'LL STACK YOU UP A CORD OF IT."

Owners. What do you mean by a fair chance, Mr. —— ?

Clerk. Let the owners square off *old debts* up to date, put in an extra boiler, paint up and put her in first rate running order, and let Capt. —— manage affairs to suit his own notion.

Owners. How much short will the boat be, after paying off as far as she is now able?

Clerk. Can't tell exactly; indeed a Philadelphia lawyer could'nt tell, from the manner in which these books have been kept, up to the time of my taking charge of them; bills are coming in every trip, but, so far as known, about fourteen hundred dollars will be "the pile."

Owners. Well! well!! This will do pretty fair for "green hands," at steamboating. A splendid boat—a fine and popular captain—an economical steward—had a splendid run, and made lots of money—but no cash on board!

This might be thought a fancy sketch by some (with a few thousand dollars in spare cash) just ready to embark in a steamboat speculation; but it is our real and candid opinion, that if *"an infallible medium"* were to issue a *"Narrative"* containing the *History* of steamboating and the *Lives* of steamboat owners, (especially of those unskilled in the management of accounts,) the facts disclosed would prove that hundreds of captains, pilots, engineers, etc. etc., had been ruined or rendered bankrupt

Todd, R. L. & H. A.	

and thousands of dollars squandered, by incompetent, inexperienced, and careless steamboat clerks. But we are happy to know that an important change is rapidly taking place, and *interested parties* are becoming impressed with the importance of confining themselves to their *legitimate professions*, or of qualifying themselves for others before engaging in them. Honest, competent and worthy accountants are beginning to be appreciated, and properly remunerated for their services. Young gentlemen of the highest respectability, who have distinguished themselves alike for moral character, industry, and superior professional qualifications, are abandoning the "counting-house" for "the office."

Owners are requiring the books to be correctly kept. and exacting Trip Statements and such other *checks* as are necessary to protect their interests from the incompetent, the careless, and the designing.

The old fashioned steam-boat clerks, who understood nothing but the "*Recapitulation of Cash*," are abandoning "the office" and seeking employment in other professions, or they are qualifying themselves for a practical and intelligent discharge of their duties; and we are anticipating a period not distant, when steamboating, as a profession, will be elevated to its legitimate and proper position, and its lucrative offices entrusted to those only who are competent.

An extensive acquaintance with steamboat owners, and an experience of thirteen years in overhauling and adjusting steamboat Books, have induced us to believe it a duty we owe alike to ourselves and to those *who are not perfect*, but wish to be thoroughly qualified for the duties of their office, to call attention to this subject, and to give a more extensive outline of what our Institution contemplates. *It is not a school in the common acceptation of that term*, but it is pre-eminently a counting-house, or an office. Each respective gentleman has his own table, chair and drawer, and receives personal or individual instruction during his continuance at the rooms.

The preparatory course to Steamboat Book-Keeping is substantially the same as that of the Mercantile, (except Commission operations, &c.,) after which the pupil enters upon his duties as second clerk. With his "Memorandum book," he receives his freight, dray-load after dray-load, signing his "tickets," as in the practical performance of his duties on the wharf; when fully prepared, he opens his Books and proceeds in his work, receiving and paying out cash, recording his freight list, collecting his passage and freight bills, adjusting the accounts for damages, &c., winds up his trip, and makes out his "balance sheet," exhibiting the gains or losses for every trip or month, as the case may be. The utility of this course has been fully established, in the popularity of those who have adopted it, as well as by those who are interested in Books kept by pupils of this institution. From among some thirty, who have completed their courses and distinguished themselves as competent to practically perform the duties of steamboat book-keepers, we beg leave to refer those wishing information to—

COMMERCIAL LAW.

The practicability of adopting Commercial Law as an important branch in a liberal and useful education will be apparent to all, and the absolute necessity of making it a constituent part of "a business man's education" grows out of the nature of the relation, that commercial usages and the mercantile profession sustain to the profession of law.

If a gentleman choose to adopt the mercantile profession, should he not know *what constitutes a bargain in the eye of the law?* with all that relates to a contract of sale? how far, in making a bargain, he may rightly avail himself of knowledge, which he knows the other does not possess, without informing him of it? In other words, *should he not know where is the dividing line between fair dealing and cheating?*

If a merchant buy goods in a distant market, should he not understand his own rights, and also the duties and responsibilities of common carriers?

If *(as most prudent merchants do)* he effect an insurance upon his goods—if, in the regular course of transportation, or while in the warehouse, or when on sale in the store, those goods are subject to various perils,—is it not absolutely necessary for him to understand his own duties, and also the responsibilities of the Underwriters?

If, to meet the demands for an increase of capital, or to supply themselves with additional counsel or assistance in trade, merchants find it convenient to associate themselves in partnership, should they not therefore be well acquainted with their respective legal rights, duties and guarantees?

Indeed, the two professions are so intimately connected, and their reciprocal duties so marked, as to puzzle the intelligent business man to determine which is the greatest "*boor*," or the most unfortunate *victim—a lawyer, unskilled in the management of accounts, acting as "Master in Chancery," or a merchant, unfamiliarized with the laws of trade, embarking in various complicated speculations or incurring high responsibilities.* "Ah!" remarks a casual observer, "would you require every merchant to be educated for a lawyer?" "I answer, (says Judge Walker,) that while there is a vast field of law which I would advise the merchant not to meddle with, I would have him study the general principles of mercantile law, for the same reason that I would have a mechanic familiar with the tools of his trade. Indeed, so essential do I deem this kind of knowledge to every merchant, that, were I educating my son for that profession, I would set apart at least two years of his novitiate expressly for this study; nay more—so much do the two professions run into each other, especially in commercial cities, that if I were educating my son for the law, I should desire to have him spend at least the same period in a good counting-room. I speak now from my own professional experience. After having occupied more than the usual time in preparing to practice law, when I entered upon the practice, the most serious want I encountered was the want of a more accurate knowledge of those customs of mercantile law. But while I make this confession, let me say, on the other hand, that a somewhat extensive professional intercourse with the mercantile class, has often caused me to feel astonished at their profound ignorance of their legal rights and duties, *although to that very ignorance I was indebted for the need of my professional services.*"

It is not the design of this department to produce lawyers, BUT IT SHALL BE ITS HIGHEST AIM TO KEEP MERCHANTS OUT OF LAW. Very great and insuperable obstacles have hitherto prevented the carrying into execution of our original intentions touching this interesting subject, but our arrangements are such as to enable us to give the fullest assurance to the public, that in future a regular course of Lectures will be delivered during each session, embracing the following subjects, viz: Contracts in General, Contracts of Sale, Contracts of Affreightment, Contracts with Common Carriers, etc., etc.; Fire Insurance and Marine Insurance, with such other subjects as have a direct bearing on Mercantile contracts; Bailments in general, Foreign and Domestic Bills of Exchange, Promissory Notes, Bonds, Covenants, and other sealed obligations; Set-off and Recoupment, Principal and Agent, Principal and security, Corporations, etc., etc.; with such other subjects as may be of practical utility to the business man, and enable the merchant to understand his rights and responsibilities.

COMMERCIAL CALCULATIONS.

This department occupies the third story of the college building, situated on the south-east corner of Washington avenue and Third street, and will hereafter be under the control of Charles Stewart, Professor of Mathematics, whose superior qualifications as a successful Teacher have been long known and properly appreciated in this community; and his complete system of "Ready Reckoning" makes this course of the highest importance to those wishing to become thorough practical accountants. The course of instruction embraces a knowledge of every species of Calculation necessary for a business man to know; the system is Analytical, Inductive, and Practical, including all the modern improvements in the Art of Teaching, *(many of which are original, and peculiar to this Institution,)* such as the "Cancelling Method," Rules for Interest Calculations, General Average, etc., etc.

TERMS.

Commercial Calculation Ticket,	$10.00
For a full course in Arithmetic, guaranteeing to the pupil the privilege of completing at option, and of reviewing the same during life, free of additional charge,	15.00

For further information touching this department, please refer to Professor Stewart's Card, to be found on page 367.

PENMANSHIP.

To write a *free, legible* hand—such as should be used in the keeping of books, the making out of bills, or in the ordinary correspondence of a business man—is a desirable accomplishment in the education of young gentlemen for every profession; but, most especially is it an object of first importance with those qualifying themselves for mercantile and business pursuits.

No pains will be spared, on the part of the Professor in this department, to give a free and natural use of the arm, wrist and fingers, and to impart a cultivated taste for a plain, uniform and expeditious system of fine writing. Every thing resembling a *flourish* positively prohibited with those designed for the counting-room.

TERMS.

For twenty-four lessons,	$5.00
For a full course in Penmanship, guaranteeing to the pupil the privilege of completing at option, and of reviewing the same through life, free of additional charge,	10.00

COLLEGIATE COURSE.

TERMS, TUITION, &C.

A full course of Double-Entry Book-Keeping, (embracing Mercantile, Manufacturing, Steamboat Book-Keeping, &c., &c.,) in all its application to business purposes,	$30.00
Commercial Calculation Ticket,	10.00
Commercial Law Ticket,	10.00
Penmanship Ticket,	5.00
Graduation fee, including incidental expenses, and fee to examining committee,	10.00
Total Collegiate Course, *(Payable in advance,)*	$65.00

Kenis, David,	

N. B.—The foregoing prices are founded upon the principle of charging a gentleman for "instruction imparted," and not for the time he may attend, or the course for which he may be "registered;" and a deduction, in all cases, will be made for "*previous knowledge.*" To a young gentleman, writing a legible hand, a deduction will be made of five dollars; to one competent to perform the ordinary calculations of an accountant, a deduction will be made of ten dollars; and in like proportion for what may be known in Book-Keeping and Commercial Law.

An opportunity is thus given (to those who write a legible hand and can make the ordinary arithmetical calculations taught in common schools,) of obtaining a practical business education, for fifty dollars.

The time required to complete a full collegiate course will not exceed sixteen weeks, and may not require more than twelve; the hours of instruction, in the respective departments, being so arranged as to give each gentleman a command of his entire time; his progress will, therefore, depend upon his application to studies and his capacity for receiving instruction.

AN ACT

TO INCORPORATE JONES' COMMERCIAL COLLEGE, OF ST. LOUIS, MO.

Whereas, It has been represented to the General Assembly of this State, that great and important advantages would accrue to the Commercial Community of the city of St. Louis, by the incorporating of a Commercial College, to educate young men for mercantile pursuits, and afford facilities to such persons as may wish a scientific knowlege of Double-Entry Book-Keeping, Commercial Calculations, Commercial Law, and Penmanship; *and whereas,* for the promotion of this object, it is the design of the association hereinafter mentioned, to procure or erect such buildings as may be suited to the wants of the said association: *Now, therefore,* in order to encourage and facilitate the aforesaid object, and render the same more permanently and extensively useful,

Be it enacted by the General Assembly of the State of Missouri, as follows:

Sec. 1. That Jonathan Jones, Public Accountant and Principal of a Commercial School in the city of St. Louis, be and is hereby empowered to associate with him competent Professors, to fill the following chairs, to wit: one for Double-Entry Book-Keeping, one for Commercial Law, one for Commercial Calculations, and one for Penmanship; the same, (when thus appointed,) in company with the said Jonathan Jones, shall, to all intents and purposes, be, in law, a body corporate; and they, their associates, and successors, are hereby created, constituted and declared to be a body corporate and politic, by the name and style of "Jones' Commercial College;" and by that name they may have perpetual succession, and shall be capable of suing and being sued, pleading and being impleaded, answering and being answered unto, defending and being defended, in all courts and places whatever; that they and their successors may have a common seal, and alter, change or break the same at will; and that they may be capable in law of acquiring, holding and conveying so much property, real, personal and mixed, as may be necessary and requisite for the association in the furtherance of its objects, not exceeding fifty thousand dollars.

Sec. 2. That the said Jonathan Jones, his associates, and their successors, shall have the power to grant Diplomas, award Degrees, confer Honors, and exercise all and singular the privileges common to Commercial Colleges authorized by law in other States. They shall have the power to appoint their own successors, and such additional professors and servants as may be necessary to carry into effect the design of this association; provided, nothing in this section be so construed as to conflict with section fourth of this act.

Sec. 3. When five or more students shall have completed a full course in Double-Entry Book-Keeping, Commercial Calculations, and Commercial Law, and acquire a legible hand writing, (or shall otherwise satisfy the President as to their competency,) then it shall be the duty of the said President, or his representative, by and

with the advice and consent of the candidates for graduation, their parents or guardians, to appoint a committee of not less than three nor more than five practical accountants, whose duty it shall be to examine the aforesaid candidates in all of the above branches; and if the said committee award a certificate setting forth their competency to take charge of a sett of books and to perform the duties of an accountant, scientifically and practically, then section second shall remain in full force. But in no case shall a Diploma be awarded except upon the recommendation of the committee.

Sec. 4. That the said Jonathan Jones shall be the first President: he and his successors, in the office of President, shall have the power to fill, suspend and vacate all or either of the above chairs, at option, by serving written notice upon the Professor to be suspended or removed, at least thirty days prior to such removal; provided, always, that nothing in this section be so construed as to confer the power to said President, or his successors, to permanently vacate, alter or add to the number of Professorships in section first of this act, (except that of the Professor of Mathematics, whose chair may be added to that of the President.)

Sec. 5. That the said President and Professors shall be a Board for the government of this Institution: they, and their associates and successors, shall have the power to make their own By-Laws; provided nothing therein conflict with the laws of the land, or the provisions of this act.

Sec. 6. That this corporation, hereby created, shall continue so long as it faithfully observes the object of its institution; but the General Assembly, whenever satisfied that it has failed to pursue the above objects, may alter or repeal the same.

This act to take effect from and after its passage.

A. M. ROBINSON, *Speaker of the House of Representatives.*

THOMAS L. PRICE, *President of the Senate.*

Approved January 24, 1849.
AUSTIN A. KING.

Missouri, Office of Secretary of State.

I, Falkland H. Martin, Secretary of State of the State of Missouri, do certify that the foregoing is a true copy of an act of the General Assembly of said State, entitled "An act to incorporate Jones' Commercial College," approved January 24, 1849, as appears from the original roll on file in this office.

In testimony whereof, I have hereunto set my hand and affixed the seal of office, [L. S.] at the city of Jefferson, this twenty-fifth day of January, A. D. 1849.

FALKLAND H. MARTIN, *Secretary of State.*

[FORM OF THE CERTIFICATES.]

To Whom it may Concern:

This will Certify, That William H. Stone, Esq., has this day completed under my instruction, a full course of Double-Entry Book-Keeping—embracing Mercantile, Manufacturing, and Steamboat Book-Keeping; Individual, Company, and Compound Company; with Forms adapted to the Wholesale, Retail, Banking and Commission Business, etc., etc.; together with Accounts Current, Account Sales, and a Complete System of Commercial Correspondence—and that he is in every respect worthy of public confidence as a Practical Accountant, and as such I do most cheerfully commend him to the favorable consideration of the Committee hereinafter mentioned, and of those who may wish to employ a competent Book-Keeper.

Respectfully,

JONATHAN JONES,
President of Jones' Commercial College.

St. Louis, September 13, 1852.

We, the undersigned, a Committee of Practical Accountants, acting under the Charter of **Jones' Commercial College,** (section 3d,) do hereby certify, That William H. Stone, Esq., has undergone a strict personal examination, by us, as to

TO WHOM IT MAY CONCERN.

One, somewhat "*posted up*" *touching Men and things*, would, at first view, naturally enough presume it but an easy and pleasing task, to teach another a thing, which that person's own Professional duties—the duties he owes to his Creditors—the duties he owes to his family as well as his own personal interest and reputation require him to know. Acting under such mistaken notions, and from a well matured conviction, that none but a thorough Accountant himself skilled in the practical duties and personally familiarized with the entire routine of the Counting-House, could successfully train young gentlemen for the performance of their duties as practical Book-Keepers, the Principal of this Institution opened Jones' Commercial School of St. Louis, early in 1841, UPON A NEW AND STRICTLY ORIGINAL PLAN OF IMPARTING INSTRUCTION. Although that plan differs, in every essential particular, from those of its predecessors and cotemporaries, who had attempted, or were endeavoring, through the use of Bennett's, Colt's, Foster's, and other works on Book-Keeping, to qualify young gentlemen as practical Accountants, and invariably failed in their efforts, this school for a long time seemed destined to share the same fate, but of late years things seem to have changed, and the notions of business men have changed with them.—

Then it was universally maintained that young gentlemen should go to the Counting-House in order to be educated for business pursuits. Now it is pretty generally held to be essentially necessary, that young gentlemen be educated for the Counting-House just as much so as for any other profession or pursuit. For thirteen consecutive years we have labored in this city for the accomplishment of a single object—viz: the formation and permanent establishment of a reliable reputation as a *Public Accountant, and Successful Educator.* That has been our highest aim and this our only Profession. How far we have succeeded in making an impression upon the business community, we leave our "Living Epistles" to say: more than two hundred of whom in this city are recognized as practical Book-Keepers and receiving as ample remuneration for their services as those who have been qualified under any other circumstances. Our rooms are open to the public during business hours and we have at all times endeavored to cultivate the friendly acquaintance of Practical Accountants, knowing full well that they only are fully prepared to appreciate what is of utility, and reprobate that which is useless in a business education, and we say without fear of contradiction that no experienced business man, or Practical Accountant, can visit our rooms and become acquanted *with our peculiar mode of imparting instruction*, and detect the slight difference between our operations and those of the Counting-House in which he was educated, and notwithstanding all this, there are some good men in this community, gentlemen of reputed intelligence and high moral character, who are deservedly popular in their profession as practical Accountants, that think they are doing their young friends a kindly office by indiscriminately branding Commercial Schools and Colleges "HUMBUGS"!! For such we have never held unkind feelings. Indeed, entertaining the opinions they do and occupying the positions they hold, we cannot see how they could believe and do otherwise. The old fashioned Schools with which they were acquainted "in the days of their youth" were all of this stamp, (*i. e.* Humbugs!) *and they never visit new institutions of this kind*, and therefore their "ways are equal," and their views are but an inevitable result growing out of an impartial comparison of what themselves have acquired under the tuition of experienced Practical Accountants, with what inexperienced, incompetent, theoretical teachers have attempted to do. Did we understand the plan and extent of instruction adopted in this Institution, no better than *they do*, it is more than probable that we should lend them a helping hand to exterminate the imaginary evil, and add our warning voice to the Young and Unsuspecting; but in this particular, we have an advantage over them: Hence their innocency and our accountability. There is a practical Book-Keeper whose name is H—— at this time in charge of Books in one of our most respectable mercantile houses, at a salary of one thousand dollars per annum, who upon completing his course in Book-keeping under our instruction some years since, commenced and conducted the following conversation with the Principal of this Institution, in the presence of the whole School.

Mr. H——*(standing up at his Desk.)* "Mr. Jones, why is it, that you have so many enemies among the practical Accountants and business men of this City?"

J. J——. "Mr. H—— you astonish me sir! It is true I am but a comparative stranger in the City, have made the acquaintance of but few practical accountants and business men, have formed rather a favorable opinion of those with whom I have become acquainted; had thought they were not very neighborly, but I was quite certain that when we become a little more intimate, we would be as friendly as David and Jonathan were. But please Mr. H—— explain yourself more fully on this subject?"

Mr. H——. "Do you remember my commencing a course of instruction with you some two or three years since, and my unceremonious discontinuance?"

J. J——. "Quite well sir."

Mr. H——. "I was at that time acting in a subordinate situation in one of the city Insurance Offices, and one day I accidentally named to Mr. ———, our secretary, that I was attending your School in order to learn Book-Keeping. Oh! Fudge; said he all a "*Humbug*" sir, a "*Humbug.*" You cannot learn any thing there, it is only throwing away time and money without the possibility of any practical good to be derived; and such was my confidence in the gentleman's judgment and his kind intentions toward me as a friend, that I dropped off attending your School, and made engagements with S., Bro. & Co. at a nominal salary and left for Illinois. Some weeks since I received a letter from Mr. P. containing a proposition for me to take charge of their Books—on condition, that I would take a preparatory course of instruction in your Institution, which I have accordingly done, to my entire satisfaction, and to-morrow I take charge of A. & P.'s Books with full confidence in my

ability to keep them correctly and to their satisfaction; and had I known as much of your Institution at the time I spoke to Mr. —— as I do now, I could have had double the salary and two years of valuable experience, and but for Mr. P. I should have remained ignorant of the true nature and design of your Institution, as I presume thousands in this City are at this time."

Mr. H—— took charge of the Books referred to, at the time specified; and from that day until now he has been recognized as a competent Book-Keeper, and pursued no other profession, although he had never written in Books kept by Double-Entry previously to his entering this Institution.

This is but a fair specimen of what we could present by the hundred, during our first four or five years experience in this City, of young gentlemen of good business habits, writing beautifully, ready and accurate in their calculations, and perfectly familiarized with business routine—who might this day command their Twelve Hundred dollars per annum, had they not become the unsuspecting Dupes of this class of "Old Fogies." And whom have these "Old Fogies" benefited by their "Dog-in-the-Manger" policy? Have they benevolently stepped forward and supplied these young gentlemen and the business community with this lack of competent practical instruction? Not they! *When experienced Practical Accountants adopt teaching as a profession, and organize an Institution with all the facilities known in the actual performance of their duties in the Counting-House, do these "ancient worthies" visit* such Institutions and speak from what they have seen or *known?* Not they! *Their argument is "we have attended Commercial Schools* "DOWN EAST" *and were Humbugged! They have not got any thing as good* "OUT WEST," *as they have* "ON EAST"!! Therefore all Commercial Schools and Colleges are "Humbugs"!!! It is true that for a time they succeeded in diverting the attention of just such young gentlemen as were the best qualified to appreciate the merits or to condemn the policy of an Institution of this kind. But then we have gone to the carpenter shop, to the paint shop, to the printing office, and to the plough handle and selected our materials and produced a class of Book-Keepers of an entirely new and different *stamp.* These old fashioned Accountants understand Book-Keeping, but "THEY DON'T KNOW ANY THING ELSE"!! This new class of Accountants, were business men in the enlarged sense of that term, before taking lessons in Book-Keeping and mercantile usages. Educated in the school of experience in which men as they are, and things as they should be, constitute the standard Text Book. Raised to business, accustomed to industrial pursuits, and not ashamed, or too proud to work. *Thus in keeping with the progress of this wonderful age,* the economical merchant is accommodated with a Book-Keeper and *a Practical Business Man in the same contract.* Practical Accountants, Business Men, and gentlemen desirous of qualifying themselves for business pursuits are urgently, but respectfully requested to visit our rooms during business hours, and examine our mode of imparting instruction, in contradistinction to that ordinarily adopted in Schools and Colleges, and become personally acquainted with the actual workings of this Institution, as such visits do not in the least interrupt the regular operations of the School.

Respectfully yours,
JONATHAN JONES.

(FORM OF THE DIPLOMA.)

JONES' COMMERCIAL COLLEGE,

ST. LOUIS, MISSOURI.

To the Mercantile and Business Community of the United States:

This May Certify, That William H. Stone, Esq., has this day sustained an honorable examination before a Board of experienced Practical Accountants, and Graduated, at Jones' Commercial College, in the Theory, and Practice of Double-Entry Book-Keeping, Commercial Calculations, Commercial Law, and Penmanship; in consideration of which, we, the President and Faculty of the said institution, by virtue of authority in us vested by Law, do grant this DIPLOMA, and confer upon him the Degree of MASTER OF ACCOUNTS, which entitles him, as a Practical Accountant, to the confidence of the business community, and exacts from him a consecration of his best efforts to promote the interests of his employers.

In Testimony Whereof, *We have hereunto affixed our Names and Corporate Seal, this 13th day of September, A. D. 1852, at the city of St. Louis, and State of Missouri, U. S. A.*

(Seal.)

Charles Stewart,
Professor of Mathematics.

Jonathan Jones,
Professor of Commercial Law.

Ferd. Henderson,
Professor of Book-Keeping.

S. D. Hayden,
Professor of Penmanship.

JONATHAN JONES, Pres't.

Young Ladies' Collegiate Institute.

South-East Corner of Washington Av. and Third Street.

EPISTOLARY PENMANSHIP.

BY S. D. HAYDEN.

To write a plain, legible, chaste and uniform "Letter-Hand," is a desirable accomplishment in the education of every Lady. *But how few acquire this invaluable art* in our best English and Classical High Schools? This is owing to the fact that Teachers themselves have not given the subject the attention requisite to master a practical system, such as may be taught with success. Many write beautifully themselves, who utterly fail in an attempt to enable others to execute with similar ease and elegance; and it may be asked, why is it so? We unhesitatingly reply, their systems are *to them intuitive.* Penmanship, as a mechanical art, is the result of a combined motion of the arm, the wrist, and the fingers. No one but an artist can be taught to write by imitation alone, while all may be taught a beautiful hand by a proper system of training.

DOUBLE-ENTRY BOOK-KEEPING.

BY JONATHAN JONES.

We are not unconscious of the fact that some, in this community, will attach "*novelty*" to the idea of imparting instruction to Ladies in the science of managing accounts; neither are we strangers to what it requires in the way of expenditure and persevering toil to revolutionize popular sentiment, where an entire business community have been long accustomed to look one way at the subject, but experience has long since convinced us that it is but an easy task to teach a person a thing *which it is his interest to know*, or to enlist the co-operation of a class deservedly popular for their enlightened liberality and enlarged views of progressive improvements and practical reforms.

The only questions with us have been, *Is it practicable, and of public utility? Can we accomplish the object with credit to ourselves and with profit to others.*

Is it practicable, and of public utility? From well digested and universally conceded premises, we anticipate but little difficulty in maintaining the affirmative against the possibility of successful contradiction. *The leading design of education being to qualify its recipients for a practical performance of the duties of life,* it only remains for us to show that many of the duties of life, devolving upon ladies, require a knowledge of accounts, and we shall have accomplished our object.

For us, even in this country, to see a lady, *as a natural guardian*, assume the administration of a large estate, creates no unusual surprise, though she may be totally ignorant touching the management of accounts, and unfamiliarized with a general business routine. Waiving the numerous embarrassments, always consequent upon a transition from the control of one kind of business to that of another so different in its nature and requirements, what must be the result? Again, if the accumulation of that estate required years of persevering application to business, with tact, talent, and practical knowledge of accounts, is it presumable that a lady, wholly destitute of a "business education," can successfully and profitably direct affairs? Do not experience and observation too frequently prove that she and hers become an easy prey to "Interested Financiers," for the want of this very species of information? We only desire to direct public attention to a few of the leading principles which have actuated us in the commencement of an enterprise, though new in this country, none the less important, as experience has elsewhere proved. It is no unusual occurrence in Philadelphia, Liverpool or Paris, to see a lady of the highest respectability in full charge of a set of books; and why should it not be the

case in this city, where a number of ladies have distinguished themselves in the mercantile community, as equally successful as gentlemen, in commanding the trade and in fostering their means.

CAN WE ACCOMPLISH THE OBJECT WITH CREDIT TO OURSELVES AND PROFIT TO OTHERS? Although during the past ten years, we have often been solicited by ladies for instruction in Book-Keeping, until the present we have invariably declined, owing mainly to two causes.

First. Our efforts to form a reputation as a successful teacher was an experiment in the estimation of the business community of questionable utility, owing altogether to the fact that numerous, unqualified and inexperienced teachers had extorted sums for pretending to do what they could not accomplish. It was almost universally declared, that no one could be qualified in a school for the practical performance of an accountant's duties.

We were once four months in this city without receiving a single pupil, and we state nothing more than an examination of our catalogue, for the last four years, will prove to be strictly true, when we thus publicly declare, that we have compelled this community to acknowledge the genuineness of our credentials as a Professional Teacher, and to most amply and satisfactorily compensate us for our services while doing so; and we might furthermore state, (did not modesty forbid,) that we have revolutionized popular sentiment upon this subject, and established an institution upon a permanent basis for the education of gentlemen for business pursuits, not surpassed, if equaled, by any Commercial College in the United States.

And how have we accomplished our object?

We have taken mechanics from the workshop, and salesmen from behind the counter, and qualified them as practical accountants for the situations they now hold—more than one hundred and eighty of whom are now in this city, performing their duties just as practically, and receiving just as good salaries as those raised in the counting-house. And it is our unwavering opinion, that we can accomplish just as satisfactory results by the instruction of ladies.

Secondly. We have not hitherto had the facilities for fitting up such apartments as we thought would be in keeping with the class of pupils who would be most likely benefited by such instruction; but we flatter ourselves in the belief that all such objections will disappear upon a visit to the "Young Ladies' Collegiate Institute." The rooms are entirely disconnected, and the hours of instruction are so arranged as not to conflict with "Jones' Commercial College," and "Stewart's Mathematical Institute."

Ladies may enter for the above courses separately for the entire number; but in no case will payment be exacted for any but the branches in which the lady may have received instruction.

☞ THE TUITION FEES *in the respective Departments are the same as charged in Jones' Commercial College and Stewart's Mathematical Institute, for the same branches,* AND UNIFORMLY PAYABLE IN ADVANCE. The importance of this rule will appear evident to all, *as our charge is not for time, nor for a given number of lessons,* but for completing the pupil in the respective branch for which she may register herself. *She having the privilege of completing,* or reviewing the same at option, during life, free of additional charge, renders it imperious that this rule be invariably complied with.

Charles Stewart's Mathematical Institute.

Corner of Third Street and Washington Avenue.

This Institution has been in successful operation for the last eight years, under the exclusive control of CHAS. STEWART, and the success which has attended it renders its location permanent. This Institution possesses peculiar advantages over other institutions of learning, in this respect—it enables the student to devote his entire attention to one branch of study—thus enabling him to gain a more thorough knowledge of any branch of mathematics, or the entire course, in about one-fifth part of

the time required in our best schools and colleges. All the branches of *Mathematics* are taught in this Institution, together with *Natural Philosophy, Astronomy, Mechanics* and *English Grammar.*

Any person wishing instruction in any or all of the above-named branches, will save time and expense by patronizing this Institution, as the mode of imparting instruction is peculiarly adapted to the development of the reasoning powers—so that the student commences to reason when he begins to study the science of numbers. All propositions in this Institution are worked on the purely analytical *method*, which is the only true system of teaching mathematics. The cancelling method is also combined with the analytical in this Institution, by which nearly every proposition of any length may be solved without one-eighth part of the figures that are used in the ordinary method of calculation. All propositions are worked on the black-board, and explained by lectures and demonstrations so that the student is guided by reason; instead of an intricate rule that he has committed to memory, each student has to demonstrate his proposition as he works it; and it must be explained so critically that every one in his class can thoroughly comprehend it, though they were entirely ignorant of the problem when it was commenced. Hence, the mind of every student is greatly developed by this method of imparting instruction—and so thorough is the knowledge gained, that the student will have no difficulty in applying his calculations to the daily business transactions of life.

I especially invite all persons wishing instructions in Mathematics, as well as those having children to educate, and all lovers of learning, to call and witness boys from the age of nine to sixteen years, solve the most difficult problems in Mathematics in the shortest possible time. Spectators are privileged to present any problem at any time, for immediate solution by some one of the pupils under the age of eighteen years.

☞Mr. Stewart has opened a School for young Ladies in Mathematics and competent assistants have been obtained;—rooms on the first floor, entirely separate from the Gentlemen's department. The Evening Session to commence the first of October.

Mr. S. will give $100 to any teacher in the State of Missouri who will present a pupil, of his own teaching, that will excel one of Mr. Stewart's (whom he may select, under the age of eighteen years,) in Mathematics, in a public examination—the pupils to examine each other. No problem to be presented unless the one who presents it can work it himself. The teacher may assist his pupil, and Mr. Stewart will remain silent.

PRICES OF TUITION.

Arithmetic, entire course,	$15 00	Calculus,	25 00
Commercial Calculation,	10 00	Civil Engineering,	25 00
Mensuration,	10 00	English Grammar,	15 00
Algebra,	25 00	Natural Philosophy,	20 00
Geometry,	25 00	Astronomy,	20 00
Surveying,	20 00	Mechanics,	20 00
Conic Sections,	15 00	Navigation,	10 00

TUITION FEES PAYABLE IN ADVANCE. ☞the Pupil reserving the right to review at any future time, free of additional charge.

Mr. Stewart will deliver five Lectures in his school room, commencing the first Monday evening in October, on his method of teaching Arithmetic—the Lectures to be free. The public are invited to attend. Each Student who attends evening school, will be charged one dollar for light.

N. B. Gentlemen in the Commercial Calculation Department who do not complete their course before leaving and those who continue longer than five months, will be charged for a full course in Arithmetic, i. e. $15.

GENERAL INTELLIGENCE.

From numerous communications, of similar import, received during the last two years we deem it expedient to furnish this Formula of Intelligence for whom it may concern.

Question 1st. What does a full Collegiate course in your Institute cost?

Answer. For particulars touching this course, please refer to page 349, the cost of which is $65.

Question 2d. Can I enter for the different courses separately, such as for Book-Keeping, at the price charged on page 341, Penmanship page 349, &c., &c., or am I obliged to enter for the entire course at once?

Answer. Gentlemen can enter for either of the courses separately, at the regular charge; *but it will be a great saving of time to the pupil, if he design to graduate,* for him to enter for the full course at once, as each department is independent, and under the control of its respective Professor, with the hours of instruction so arranged as not to conflict with each other, and thus enable the student to appropriate his entire time to business.

Question 3d. What time does it usually require to complete a course in Double Entry Book-Keeping, or a full Collegiate course?

Answer. The time requisite to complete a full course in Double-Entry Book-Keeping, by a young gentleman of industrious business habits, (and no others make Practical Accountants under any circumstances,) writing a fair business hand, and competent to perform the ordinary calculations of an Accountant, will not exceed eight weeks, and many not require more than six; the instruction being imparted individually and not in classes, each gentleman having his respective desk, his progress will therefore be commensurate with his capacity for receiving instruction and his previous experience in business routine. A full Collegiate course will require about double this period.

Question 4th. When can I enter to the best advantage?

Answer. At one time just as well as another. ☞ THIS INSTITUTION IS IN PERPETUAL SESSION.

Question 5th. What can Boarding be obtained at per month?

Answer. From $10 to $15 per month; good Boarding can at all times be obtained in private families at $12 per month.

Question 6th. What are the prospects for a situation, provided I am qualified for it?

Answer. A young gentleman of good moral character, of industrious business habits, *and not too proud to work and willing to accept what offers,* has never been known to be in want of a situation in this city; and no young gentleman answering this description, fully qualified, has ever failed to receive a proper remuneration for his services—though all of this is independent of our contract as Teacher and Pupil. By that contract, we, parties of the first part, are firmly bound, and by these presents, do covenant and agree to complete and in every respect qualify each and every Pupil to perform the duties of an Accountant in charge of the most complicated Books, or to sustain an examination before a Committee of Accountants of his own choosing—*but no further.* The Pupil, party of the second part, covenants and agrees to conform to the rules and regulations of the Institution, and to consecrate his best efforts to the accomplishment of the objects for which he has been registered, during his entire course of instruction—*but no further.* Then this agreement to be in full force; *but if otherwise, it shall be void.* Thus the Teacher and Pupil are both free in all matters disconnected with instruction. This is as it should be. Our Pupils are our "FINGER BOARDS," and, as we have constant applications for young gentlemen answering to the above description, we are quite certain to select such only as by their superior qualifications point to ☞ JONES' COMMERCIAL COLLEGE, *Corner of Washington Avenue and Third Street.*

N. B. Gentlemen wishing circulars or further information touching the above will please call at the office of the Institution, on the south-east corner of Washington Avenue, and Third Street, or address JONATHAN JONES,

For any distance over 3000 miles, - - - - -	15	30	45	15	30	45

Every letter or parcel not exceeding half an ounce in weight, shall be deemed a single letter or rate.

All drop letters, or letters placed in any post-office, not for transmission, but for delivery only, shall be charged with postage at the rale of one cent each.

Rates of Postage to be charged upon Newspapers, Periodicals, Unsealed Circulars, and every other description of printed matter, transient or otherwise, from and after 30th September, 1852.

Newspapers, periodicals, unsealed circulars, or other articles of printed matter, (except books,) when sent to any part of the United States, weighing 3 ounces or under, 1 cent. For every additional ounce, 1 cent.

Newspapers and periodicals, when circulated in States where published, weighing not over ½ ounce, ½ cent.

Transient newspapers, periodicals, &c., sent to any part of the United States, NOT prepaid, weighing 3 ounces or under, 2 cents. For every additional ounce, 2 cents.

Transient matter, to be entitled to the benefit of the rates first above mentioned, must be prepaid at the mailing office. If not prepaid, it is subject to double said rates.

Newspapers, periodicals, magazines, or any other printed paper or matter, must be sent without any covers or wrappers, or in covers or wrappers open at the ends or sides, so that the character of the matter contained therein may be determined without removing such wrapper.

QUARTERLY RATES

On Newspapers and Periodicals, when paid in advance, sent from the office of publication to actual subscribers, from and after the 30th September, 1852.

Weekly newspapers, (one copy only,) sent to actual subscribers within the county where printed and published, FREE.

☞ **CALL AND EXAMINE.**

Saline Coal & Manufacturing Company.

Saline, Gallatin County, Illinois.

The Stock of this Company consists of 10,000 shares of $100 each, fully paid up, and liable to no assessment, of which 2,000 shares are the property of the Company. The mines are located on the Saline river, about 2½ miles from the Ohio, in Gallatin county, Illinois. The Company own over 7,000 acres of excellent farming lands, free from incumbrance, about 6,000 acres of which is underlaid with seven workable seams of coal, of an aggregate thickness of 30 feet. The greatest portion of the surface is covered with valuable timber, much of it white oak of the very best quality. Besides the coal, there are inexhaustible quantities of marble, freestone, fire sandstone, fire clay, common clay, building and moulding sand, and salt. It is well situated, with reference to markets, for all of these products, especially coal, which sells readily, for cash, at a large profit upon the cost of mining and delivery. The Company have three coal mines open and in working operation, over forty houses built, and others in process of construction. Four blacksmiths' shops, one forging shop, one machine shop, one carpenter's shop, one steam saw mill, two steam tug boats, thirty coal boats, about two miles of T iron railroad, and a large amount of live and rolling stock, tools, &c. All the works and erections are new, having been constructed within the last twelve months, for cash. The producing point has but recently been reached, since which the Company has got out and sold over ten thousand tons of coal, which has realized a profit of not less than fifteen thousand dollars, and the Treasurer's estimates show, that by the first of August, a dividend will have been earned of 2½ or 3 per cent., and for the next six months following, of 4½ to 5 per cent. After that period, it is expected that the earnings will increase in a still greater ratio, as the outside fixtures will be nearing their completion, and the underground galleries are, and will continue to be pushed forward day and night, for the purpose of getting working room to mine constantly increasing quantities of coal. At a meeting of its Stockholders on the 6th of June, the Company determined upon the following line of policy, viz:—1st. The Company will incur no permanent debt. 2d. So much of the reserved stock shall be sold as may be necessary to complete the construction, without the use of current earnings. 3d. The current earnings shall be divided semi-annually among the stockholders. Under this policy the vast property will be kept free from embarrassment, and the stock will pay regular dividends; and as it is in the nature of fast property, it is believed that all that class of persons who are seeking safe investments will find it for their interest to embrace this opportunity to invest in this stock. The Company, it appears, has no debt except floating liabilities, so that the net earnings may be divided among the stockholders, without any drawbacks or diminution for the purposes of construction.

The Company is now selling 100,000 of its reserved capital stock, which, from its present prosperous condition, is likely to meet with a ready sale—the Railroad, and other improvements going on in that section of the State are highly calculated, not only to offer greater facilities to the Company, but also to greatly enhance the value of all its property.

For further particulars, application may be made to J. M. WOODWARD, or H. H. CASEY, at the office of the Shawnee Coal Company, No. 1 Pearl Street, N. Y.
